

NATURAL SCIENCES DEPARTMENT COURSES

Decide which 20% of the department courses will be assessed in each of the academic years below. Put a check mark under the year your regularly-offered courses will be assessed at the course level. All sections of the selected courses must do the assessment during the same semester. The instructor may decide to assess all SLOs for the course, but the IEC suggests that no more than three (3) course SLOs be assessed. Also, if there are multiple sections of a course taught by several instructors, it may be more efficient and effective to decide on an assessment tool and criteria of success as a group.
