Reason:

CCCWCM #6100 (Amended for WCC use October 2002)
1. What change is proposed in the course? Provide specific information comparing both the “new” and “old” course.

Change of course description: Remove "Students will not receive credit for both CHEM 151 & 161"

Reword prerequisites:
OLD: Credit in MATH 24, grade of C or higher in ENG 21 or higher, or placement in ENG 100, or consent of instructor"
NEW: "Credit in MATH 24 or higher, grade of C or higher in ENG 21 or placement in ENG 22 or higher or consent of instructor"

2. What is the rationale for the change?

CHEM 151 & 161 are not identical courses; students should be eligible to receive credit for both.

Students placing in ENG 22 or higher will have adequate reading and writing skills to succeed in this course.

3. Is the change substantive enough to require a change in course identification? If so, explain thoroughly.

NO

4. Is the course articulated with any 4-year program? *

If yes, give details of the agreement(s) and explain any impact the proposed modifications may have on articulation. Articulation will not be impacted.

5. Provide details of any additional staff, equipment, facilities, library/media material, faculty preparation and other financial considerations that would be required to implement this course modification. What has been done to provide for these additional costs? Who will teach the course? Is additional preparation needed?

None

6. Will this course modification result in any alterations in the number of hours required to attain a certificate or degree? * If yes, provide details and justification for these alterations.

No

7. If the course is renumbered to 100 or above, does it meet the criteria for transfer level courses? (Go to next page for transfer course criteria.) *
