Revised 1/29/93
WCC FORM FOR COURSE MODIFICATIONS

Course: HAWST 107  Submitted by: F. K. Meinecke  Date: Fall 1998

1. What change is proposed in the course? Provide specific information comparing both the "new" and "old" course.

WCC's HAWST 107 will have an enlarged scope of subject matter (cf. attached proposed course outline) which will bring it into better synchrony with U.H. Manoa's HAWST 107.

2. What is the rationale for the change?

The proposed modified course offers students a wholly articulated and transferable course with U.H. Manoa's HAWST 107, the introductory and required course for HAWST pre-majors and HAWST majors.

3. Is the change substantive enough to require a change in course identification? If so, explain thoroughly.

Yes, the proposed change in course alpha and numbering is intended to articulate with U.H. Manoa's (and four other CCs') HAWST 107 introductory course.

4. Is the course articulated with any 4-year program? Yes

If yes, give details of the agreement(s) and explain any impact the proposed modifications may have on articulation.

Course articulation agreement pending WCC's approval.

5. Provide details of any additional staff, equipment, facilities, library/media material, faculty preparation and other financial considerations that would be required to implement this course modification. What has been done to provide for these additional costs? Who will teach the course? Is additional preparation needed?

No additional staff, equipment, facilities, library/media material, faculty preparation or other financial considerations are required to implement this course modification.

Instructor will be determined pending department decision.

6. Will this course modification result in any alterations in the number of hours required to attain a certificate or degree? No

If yes, provide details and justification for these alterations.

7. If the course is renumbered to 100 or above, does it meet the criteria for transfer level courses? (See attached criteria for transfer courses.) Yes.
