Describe the information, knowledge, skills gained from your project
IACLEA's Annual Conference & Exposition is the premier meeting for campus public safety leaders. This Conference featured a variety of educational workshops, General Sessions, an Exhibit area with products and services for the campus public safety community, awards and recognition, and special events. The Conference also provided an unparalleled opportunity for me to network and share best practices and ideas with Security Directors, Managers, and Chiefs from across the nation. I toured the Campus Police Departments of the University of Louisville and the University of Kentucky; they each have approximately 45 sworn police officers as well as 30 unworn security officers. I attended various Clery compliance trainings, leadership trainings, and emergency management trainings.

Describe how you will apply your experience to further the College's mission to provide quality post-secondary education.
Windward Community College's mission is to offer innovative programs in the arts and sciences and opportunities to gain knowledge and understanding of Hawai'i and its unique heritage. With a special commitment to support the access and educational needs of Native Hawaiians, we provide O'ahu's Ko'olau region and beyond with liberal arts, career and lifelong learning in a supportive and challenging environment — inspiring students to excellence. Providing a safe and secure learning environment is the first step toward accomplishing that goal. The experience and skills that I acquired from the annual IACLEA Conference will allow me to better facilitate the building of a Campus Safety program that is on par with the best institutions in the country. This will allow the College to better fulfill its mission.

Describe how you will share your experience with your office, department, or the faculty/staff at large.
Throughout the year I will facilitate safety trainings for the Administrative staff where I will share much of the knowledge and experience that I gained at this conference. The manner in which I perform my job using these newly acquired skills and techniques will definitely benefit the entire Windward Community College Ohana as we continue to make Campus Safety a priority.
