Re: Class alternatives for CA Agripharmatech

Aloha,

This memo is to request class alternatives for the following two classes listed in the CA Agripharmatech:

1. Change from "Math 103" to "Math 103 or higher".
2. Change from "BOT 210 Phytobiotechnology" to "BOT 210 Phytobiotechnology or BIOL 275/275L Cell and Molecular Biology"

These changes provide the flexibility for students to select classes more appropriate for their majors.

Please let me know if you have any questions.

Sincerely,

Ingelia White Ph.D.
Professor, Botany/Microbiology
Coordinator, Agripharmatech Program
