

# Getting Started With Laulima (for online course material)

## Logging In to Laulima

1. Go to the Laulima login page, which is located at: <http://laulima.hawaii.edu>
2. Log in using your UH ID name and password (or if you are not at UH, log in using the name and password you were provided)

## Course Tools

There are many tools that could be available, depending on how your instructors have designed their courses.

You can set up your “My Workspace” by clicking on the “Preferences” tool.

You can enter **profile information** (such as your name, contact information, picture, and so on) by clicking on the “Profile” tool.

Note: your screen will look different from the one pictured below, with other courses and perhaps other tools (the list on the left side)

## Choosing Your Course

You are already a member in all of the credit courses that you have signed up for. On the top blue bar, select the course you want to view.

If the course does not appear, select the “more” button and a full list will appear.
