The Certificate of Achievement in Veterinary Assisting is designed to provide students with the basic knowledge and skills required to perform effectively as an assistant in a veterinarian’s office, animal shelter or animal research facility. The two-semester program includes coursework in the physical and life sciences as well as hands-on experience through internships at local veterinary clinics.

The Associate in Science in Veterinary Technology is designed to provide the students with traditional classroom instruction with intensive hands-on laboratory and practical experience utilizing live animals in a clinical setting. Students enrolled in the program will receive didactic and practical training in pharmacology, radiology, anesthesiology, surgical assisting, dentistry, nutrition, and veterinary office procedures and will learn how to perform over 130 skill sets deemed essential by the American Veterinary Medical Association (AVMA).
