• Identify how an appreciation of the visual arts influences the quality of life.
• Analyze how the elements of form and principles of design work together with the creative process to produce a work of art.
• Describe individual art disciplines, media, and specific methods of making art.
• Define major historical and contemporary movements in art and discuss how it reflects its time and culture.
• Execute studio art projects in order to experience visual concepts, art disciplines and media.

• Create at least one basic 2D and 3D studio art project, utilizing media specific to the successful outcome of each project.
• Execute one project based upon art history or museum observation.
COURSE CONTENT

My goal this semester is to enhance the quality and depth of your engagement with art by exploring what art is, how and why it is made, and experience what it’s like to see, think and work in an artistic mode. To understand the role of art in our lives today, we will participate as both the artist and the observer. We will achieve this through readings and discussions full of images, demonstrations, and hands-on projects in various media.

For those considering a major in the arts, this course will also serve as an introduction and preparation for the studio art program here at WCC.

ASSESSMENT TASKS AND GRADING

This course will require you to do weekly readings from your textbook and occasionally additional handouts and articles, from which you will be learning vocabulary and considering concepts. Your readings will prepare you for our in-class discussions and will anticipate our in-class projects and your sketchbook assignments.

Attendance:
Every class meeting will involve some sort of artistic exercise or project and most lectures will go beyond the text in some way so attendance and participation will be vital to your success in this class. Your attendance will be counted as follows:

You are allowed 2 absences; each additional absence will cost you 4 points.
You are allowed 3 lates (up to fifteen minutes); each additional late will cost 2 points.

There will be no make-up exams given; you must be present for both the midterm and the final.

Grading:
Your grade in this course will be achieved in two ways to better facilitate your understanding of art. One part of your grade is based on written exams and an exhibition review assignment. The other part comes from participation in your own artwork using ideas in two- and three-dimensional methods. Bonus points may be awarded for excellent work, and there may be an opportunity to earn extra credit through additional projects and assignments.

The written/exam portion of your grade will cover vocabulary and concepts in the text and from discussions, where appropriate. The exams will include multiple-choice questions pertaining to images in the book (that will be shown), some short answer/fill-in-the-blank questions, and perhaps a short essay. I will make every attempt to be clear as to what you will be responsible to know, but please ask when you are unsure about anything.

You will be maintaining a sketchbook throughout the semester that will contain projects that require your application of the art concepts we discuss and explore. This will be collected at mid-term and at the end of the semester to be graded. Each assignment will show the available points.

You will also be given three larger artistic Projects that will be due throughout the semester. They will involve a bit more time, so please prepare and allow for this. The time, thought and energy invested are readily apparent and a quick-rushed project will be scored accordingly. They carry a possible bonus for work done beyond the expectations of a beginning student.
Your artwork will not be considered based on talent, but on your understanding of the art concepts presented. No one is required to know how to draw. You will learn all you need to know to complete these assignments and you may be surprised at the skills you develop. The assignments in the sketchbook and the Projects should not be started until after we have discussed them in class. These assignments are subject to change based on time factors and where the course of the semester takes us.

Your grades will be calculated based on the following percentages:

- Mid-Term Exam: 40%
- Final Exam: 40%
- Library (SFCA) Art Review: 20%
- Projects I, II, and III: 30%
- Sketchbook: 50%
- Final Project: 20%

The above will be added together and divided by two to determine your grade. The percentages will equate as letter grades as follows (subject to slight adjustments):

- 90 and above: A
- 80 – 89: B
- 70 – 79: C
- 60 – 69: D
- below 60: F
