Describe the information, knowledge, skills gained from your project
Through the workshops I learned different techniques that would facilitate a more engaging, equitable, and productive learning environment in my language courses.

Describe how you will apply your experience to further the College's mission to provide quality post-secondary education.
I will be applying these techniques that I learned during this workshop within all of my courses that I will be teaching this coming semester to improve our students' acquisition and retention of Hawaiian.

Describe how you will share your experience with your office, department, or the faculty/staff at large.
I plan to work with our Hawaiian language faculty in teaching them the techniques that I have learned in the workshop to bring about a more cohesive language learning experience here at WCC. I also have reached out to Castle High School's Hawaiian language teacher and to UH Manoa's Hawaiian language department to help articulate what student learning outcomes will look like by teaching through this method. I will also continue to advocate for using teaching methods that are effective and bring more equity to our classrooms within our larger system wide articulation discussions.
