LEARNING RESOURCES

1. TBD

Additional Information

• Instructor expectations
  1. You will need to practice at least 30 minutes daily on technical exercises, sight reading, and repertoire.
  2. You will attend all classes and be prepared for each.

• Practice Hints:
  a. Prepare to play a piece by reading it through with your eyes for note and rhythm patterns.
  b. Practice SLOWLY and ACCURATELY; learn hands separately.
  c. Don't allow yourself to make mistakes; they just have to be unlearned.
  d. Always go back at least one note to correct a mistake; don't play the wrong note, then right note in sequence more than once, because that is the pattern you will learn.
  e. Don't play pieces straight through each time. Try these alternatives:
     1) Practice one measure-plus-one note.
     2) Mark and work on "fractures" (difficult spots) until they are the easiest parts of the piece.
     3) Play the piece backwards--start with the last couple of measures, then go back one or two more and play to the end, then a little further back, etc., until you are playing from the beginning to the end.
  f. COUNT ALOUD. It works!!!
