MATH 111 - Mathematics for Elementary Teachers I
3 Credits

INSTRUCTOR: Clayton K. Akatsuka, Professor, Mathematics
OFFICE: Mana 112

OFFICE HOURS: M, W: 9:00 am – 10:00 am;
T, Th: 8:00 am – 8:30 am, 12:30 pm – 1:00 pm;
or by appointments.

TELEPHONE: 236-9279
e-mail: akatsuka@hawaii.edu

EFFECTIVE DATE: Fall 2013

WINDWARD COMMUNITY COLLEGE MISSION STATEMENT

Windward Community College offers innovative programs in the arts and sciences and opportunities to gain knowledge and understanding of Hawai‘i and its unique heritage. With a special commitment to support the access and educational needs of Native Hawaiians, we provide O‘ahu’s Ko‘olau region and beyond with liberal arts, career and lifelong learning in a supportive and challenging environment — inspiring students to excellence.

Disabilities Accommodation Statement

If you have a physical, sensory, health, cognitive, or mental health disability that could limit your ability to fully participate in this class, you are encouraged to contact the Disability Specialist Counselor to discuss reasonable accommodations that will help you succeed in this class. Ann Lemke can be reached at 235-7448, lemke@hawaii.edu, or you may stop by Hale `Akoakoa 213 for more information.

CATALOG DESCRIPTION

Math 111 is the first of a two-course sequence designed to give prospective elementary education majors the depth of understanding necessary to teach mathematics in the elementary classroom. Topics include number (natural numbers, integers, fractions, and real numbers) and operations, sets, patterns, functions and algebra. Emphasis will be on communication, connections and problem solving, representations, and reasoning and proof.

Prerequisite: Grade of “C” or better in MATH 25 or placement into MATH 100 or equivalent, and successful completion of ENG 100.

STUDENT LEARNING OUTCOMES

The student learning outcomes for the course are:
1. Explain and utilize numbers, ways of representing numbers, relationships among numbers, and number systems.

2. Explain the meaning of operations and how they relate to each other.

3. Describe various types of patterns and functional relationships.

4. Utilize symbolic forms to represent, model, and analyze mathematical situations to solve problems.

5. Communicate mathematical ideas verbally, in writing, and through mathematical representations to various audiences.

*Note: All SLO assessments are embedded in class activities, homework, or exams.*

**Concepts or Topics**

- **Operations and Their Properties**
- **Numeration Systems and Sets**
- **Problem Solving**
- **Geometry – Polygons, Spatial Visualization, and Similarity**

**Skills or Competencies/Responsibilities of Students. Success in this course will be enhanced by:**

1. a positive, inquiring attitude towards learning mathematics;
2. setting aside adequate time for studying and working of problems;
3. seeking assistance from the instructor and the Math Lab personnel whenever necessary;
4. completing assignments by the designated date;
5. regular class attendance, participation and maintaining accurate class notes.

**COURSE CONTENT**

**COURSE TASKS**

The mode of instruction is primarily discussion-problem solving where the initial portion of each class period may be utilized to discuss and clarify any questions from the preceding class meeting and/or assignment, and the remaining portion is used to discuss new material. Lectures, directed student explorations, group work, conferences, appropriate technologies, and projects will also be used as appropriate.

**ASSESSMENT TASKS AND GRADING**

The student will demonstrate competency in the objectives by participating in and completing all class activities, by completing and turning in all assignments as requested and by taking unit tests. Class activities and unit tests are to be taken in the classroom and without any references unless otherwise stipulated by the instructor.

It is the student’s responsibility to obtain and complete all assignments that are given in any class.
meeting for which the student is unable to attend. Unless permission is granted by the instructor beforehand, assignments and tests must be completed and submitted to the instructor at the specified date and time.

Points will be assigned to each graded assignment, class activity, and tests as follows:

1. **Homework.** Homework sets will be graded on a 0 - 5 point scale. Assignments are due at the next class meeting to the instructor. Late homework may be accepted with penalty.

2. **Class Activity.** Class activities are done in class. Class activities will be graded on a 0 - 3 point scale. There is no make-up for a missed class activity. Students must be present in class to participate.

3. **Unit Exams.** The three unit exams are given in class at the end of the designated sections. A unit exam will be approximately 50 minutes in length and will be scored on a 100-point scale. There is no retest.

Make-up opportunity for a unit exam will be possible only upon a timely presentation of a serious and justified explanation of the student’s absence from the class test. The instructor has the right to request documentation of the student’s absence from the class and to determine if the absence from the class test is justified. A make-up exam must be taken within one week of the in-class test unless otherwise specified by the instructor. **No more than one exam may be taken by a student on a make-up basis.**

**Course grade.** Each letter grade for the course will be assigned according to the level of achievement as provided in the table below:

<table>
<thead>
<tr>
<th>GRADE</th>
<th>DEFINITION</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>90% - 100% of the total possible points</td>
</tr>
<tr>
<td>B</td>
<td>80% - 89% of the total possible points</td>
</tr>
<tr>
<td>C</td>
<td>70% - 79% of the total possible points</td>
</tr>
<tr>
<td>Cr</td>
<td>70% - 100% of the total possible points</td>
</tr>
<tr>
<td>NC</td>
<td>Less than 70% of the total possible points</td>
</tr>
<tr>
<td>D</td>
<td>60% - 69% of the total possible points</td>
</tr>
<tr>
<td>F</td>
<td>Less than 60% of the total possible points</td>
</tr>
</tbody>
</table>

Note: Students must apply for the Cr/NC grading option at the Admissions Office. Consult the WCC Catalog for deadlines.

Note: W grade is given only when the student officially withdraws from the course at the Admissions Office. Consult the WCC Catalog for deadlines.

**LEARNING RESOURCES**

**Additional Information**
1. Grading on Homework, Class Activities, or Exams. To receive full marks for problems done on any graded activity, you must show your work neatly and completely as well as provide clear written explanations when it is asked for.

2. Absences. **It is your responsibility to attend every class meeting.** Even if you are absent, you are responsible for those topics and examples covered in class that you missed. Furthermore, you are responsible for obtaining any important announcements and assignments given during the class you missed. If you are absent frequently or for an extended period of time, contact the instructor as soon as possible to discuss your situation. Absences and tardiness to class will have a negative impact on your success in this course.
