Botany 101 lecture/lab  
General Botany CRN 62461  
4 units Hale ‘Imiloa 101  
MW 4:00 – 6:30 pm

INSTRUCTOR: Teena Michael PhD  
OFFICE: Hale ‘Imiloa 107  
OFFICE HOURS: W 2:30 to 3:30 pm *and by appointment  
TELEPHONE: (808) 236-9104  
EMAIL: teena@hawaii.edu  
EFFECTIVE DATE: Fall 2014

WINDWARD COMMUNITY COLLEGE MISSION STATEMENT

Windward Community College offers innovative programs in the arts and sciences and opportunities to gain knowledge and understanding of Hawai‘i and its unique heritage. With a special commitment to support the access and educational needs of Native Hawaiians, we provide O‘ahu’s Ko‘olau region and beyond with liberal arts, career and lifelong learning in a supportive and challenging environment — inspiring students to excellence.

CATALOG DESCRIPTION

Introduction to plant structure, function, reproduction, and evolution; plants in relation to the environment and human activities. Lecture/laboratory/field trip course. (3 hours lecture, 3 hours laboratory)

Recommended Preparation: High school biology

Activities Required Other Than Class Times:
Preparation for lecture and lab components of class, writing assignments and projects. Possible field trip during class time or alternative time as arranged in class.

STUDENT LEARNING OUTCOMES

Upon completion of the course, the student will be able to:
- Discuss basic concepts of plant morphology, anatomy, physiology, cytology, taxonomy and genetics.
- Discuss life cycles of division in Thallophyta, Bryophyta, Pteridophyta and Spermatophyta.
- Discuss interrelationship between plants and animals, and socio-economic importance of plants on humans.
- Discuss plant biotechnology.
- Operate dissecting and compound microscopes.
- Perform traditional and in vitro propagations.

COURSE TASKS

Service Learning
I encourage you to volunteer at a Hawaiian/Restoration site as part of Service Learning. Full participation (20 hours/semester) will result in an A grade for one exam (but you must take the exam and earn a C or better) as well as an opportunity to apply theory to practice and contribute to the perpetuation of the sites and all associated with it. We will discuss this in class.
OPTIONS include Reflections, Journal Assignments, Articles and Movie Reviews. Choose options to total 25 points

*Journals* Problems or questions for journal entries will be discussed in class. Each journal is 10 points and should be 1 or more single-spaced typed pages.
You will be evaluated on:
1) Your handling and understanding of basic information
2) Analysis of the problems
3) Inventiveness
4) Correct adding your own thoughts/opinions. List your reference(s).

OPTION 1. How have plants contributed to war? Choose a war that interest you then compile information, refer to your reference(s) as you write and *add your own thoughts on the subject.

*Reflections* Reflections on class content are options. Three points will be assigned for each reflection with 3=complete and exploratory or thoughtful, 2=a collection of information, 1=some information but not complete.

*Literature* (5 points/short article, 10 points long article) Review one article. Sources include the newspapers, magazines, journals (e.g. *Scientific American, National Geographic, Science News, Rolling Stone, or a scientific journal*). Write 3 paragraphs: *Paragraph one* will summarize the intent and information in the article. *Paragraph two* will summarize information from a web site that you find on the same subject. The *last paragraph* contains your thoughts about the information and/or subject.

*Movie* (5 points) Watch a movie and explain/explore the botany OR the biology that is relevant to botany involved in the movie. Examples include (but are not limited to!) *Food Inc., Emerald Forest, Botany of Desire*...

PROJECT
*Class Project/Presentation (40 points) will be discussed in class.*
Choose a topic near the beginning of the semester, form a group OR partner OR work solo then develop and present a PowerPoint or other form of presentation to the class. Each student will have 10-15 minutes for presentation.

* Project guidelines will be available and project examples include (*but are not limited to*):
  - The ecology, evolution and ethnobotany of a native Hawaiian (or other Pacific Island) plant
    - Hawaiian uses of plants OR Tongan…Samoan…uses of plants!
  - As aspect of Botany that complements the student’s field of study (Art, Nursing, English, Acting, Business, Medicine, Environmental Science, Forensics for example)
  - The impact of plants on the history of the world via crop failures, mass migrations, the quest for new trade routes and wars
  - Plants or organisms studied in botany as drugs—cultural perspectives and how they work at the level of cells, tissues…
  - The architecture of plants
  - Bioengineering with plants or GMO’s
  - Global warming and plants
  - Plant behavior
  - Politics of food
  - Deforestation…

Class presentations, movies, group exercises and worksheets, as well as lab techniques and investigations will be resources for you to learn the material, explore the significance of our studies—and succeed on the exams.
Make-up for exams is permitted for emergencies or illness accompanied with a doctor’s note and must be completed within one week of the scheduled exam date. *There are no make-ups for the Final Exam!*

**Grading**

Grading is based on the percentage of total points earned. Final Grades will be assigned as follows:

- A 90 - 100%
- B 80 - 89%
- C 70 - 79%
- D 60 - 69%
- F 0 - 59%

I (incomplete), given at the INSTRUCTOR’S DISCRETION when you are unable to complete a small part of the course because of circumstances beyond your control. It is YOUR responsibility to make up incomplete work with a minimum level (or better) of achievement. Failure to satisfactorily make up incomplete work within the appropriate time period will result in a grade change from “I” to the contingency grade identified by the instructor (see catalog).

CR (credit), 60% or above in total points. See catalog for specifics and calendar for dates. NC (no credit) will be assigned for a grade below 60% of total points. The NC grade will not be used as an alternative grade for an “F”. Last day to withdraw with “W” grade is October 30, 2014.

**LEARNING RESOURCES**

Additional Information

**Nondiscrimination and Affirmative Action**
If you have a physical, sensory, health, cognitive, or mental health disability that could limit your ability to fully participate in this class, you are encouraged to contact the Disability Specialist Counselor to discuss reasonable accommodations that will help you succeed in this class. Ann Lemke can be reached at 235-7448, lemke@hawaii.edu, or you may stop by Hale‘Akoakoa 213 for more information.

*The University of Hawaii is committed to a policy of non-discrimination on the basis of race, sex, age, religion, color, national origin, ancestry, disability, marital status, arrest and court record, sexual orientation, or veteran status in all of its programs, policies, procedures, or practices. This policy covers admission and access to, participation, treatment and employment in university program and activities.*
