

ICS 101 – Digital Tools for the Information World

3 Credits

MW 10:00-11:15 am | TR 10:00-11:15 am

INSTRUCTOR:	Laura Sue
OFFICE:	Hale Palanakila 119A
OFFICE HOURS:	Tuesdays 2:30-4:00 pm and Fridays 9:00-11:30 am
TELEPHONE:	236-9253
EMAIL:	lurasue@hawaii.edu
EFFECTIVE DATE:	Fall 2014

Windward Community College Mission Statement

Windward Community College offers innovative programs in the arts and sciences and opportunities to gain knowledge and understanding of Hawai'i and its unique heritage. With a special commitment to support the access and educational needs of Native Hawaiians, we provide O'ahu's Ko'olau region and beyond with liberal arts, career and lifelong learning in a supportive and challenging environment — inspiring students to excellence.

Catalog Description

Hands-on computer class with emphasis on producing professional level documents, spreadsheets, presentations, database, and web pages for problem solving. Includes concepts, terminology, and a contemporary operating system. (3 hr. lect).

Recommended Preparation: 1 yr. high school algebra or equivalent.

Student Learning Outcomes

1. Utilize the appropriate computer applications to produce professional-level documents, spreadsheets, presentations, databases, and web pages for effective communication (major content area).
 - a. Produce documents in a variety of formats.
 - b. Create, edit, and format electronic spreadsheets using formulas, functions, and charts.
 - c. Utilize a database with queries and reports that display required data.
 - d. Create and organize a variety of electronic slides using templates, background styles, graphics, photos, and animation effects.
 - e. Create web pages that contain hyperlinks and images that are suitable for publication.
2. Utilize operating system interfaces to manage computer resources effectively.
3. Extract and synthesize information from available Internet resources using intelligent search and discrimination.
4. Define, explain, and demonstrate proper computer terminology usage in areas such as hardware, software, and communications to effectively interact with other computer users and to prepare for higher-level computer courses.
5. Describe ethical issues involved in the use of computer technology.

Course Tasks and Student Learning Outcomes Alignment

Student Learning Outcomes	Projects	Exercises	Exams
Utilize the appropriate computer applications to produce professional-level documents, spreadsheets, presentations, databases, and web pages for effective communication (major content area).	Research project	All in-class and homework assignments	Exams 1 - 4
Utilize operating system interfaces to manage computer resources effectively.		File management assignment	
Extract and synthesize information from available Internet resources using intelligent search and discrimination	Research project		
Define, explain, and demonstrate proper computer terminology usage in areas such as hardware, software, and communications to effectively interact with other computer users and to prepare for higher-level computer courses			Final exam
Describe ethical issues involved in the use of computer technology.		Ethics assignment	Final exam

Assessment Tasks and Grading

Assignments	Points	Percentage of Total
Classwork	50	10%
Homework	200	40%
Research Project	25	5%
Exams 1-4	150	30%
Final Exam	75	15%
GRAND TOTAL	500	100%

Grades for the course will be as follows:

- A 90-100% of possible points
- B 80-89% of possible points
- C 70-79% of possible points
- D 60-69% of possible points
- F 0-59% of possible points

Learning Resources

Required Software (available on computers on campus):

- Windows Computers (one of the following)
 - Microsoft Office Professional 2007/2010/2013
 - Microsoft Office Student & Family 2007/2010/2013 & use of Microsoft Access 2007/2010/2013
- Apple Computers (one of the following)
 - Microsoft Office 2011 & use of Microsoft Access for Windows
 - Microsoft Office Professional 2007/2010/2013 running on a Windows partition such as Boot Camp or Parallels (requires Windows to also be installed)

Additional Information

Business-like behavior: ICS courses at Windward Community College are part of the Business department. In order to fulfill the objectives of the Business department, students are expected to present business-like behavior. Business-like behavior includes:

Attendance: Attend class regularly. This includes arriving on time and remaining until the end of class. Students who attend class regularly are more likely to earn higher grades.

Online Discussions: Be courteous in online discussion areas.

Turn in assignments on time: Start assignments before the due date. If situations arise which prevent assignments from being completed on time, notify the instructor right away.

Ask for assistance: In a business, if you were uncertain about what to do, you would ask your boss for direction. In this class, ask the instructor for assistance.

Exams: The exams will be based on class lessons, class readings, and understanding and comprehension of skills learned in class. The final exam will be comprehensive. Exams 1 through 4 will be hands-on to demonstrate practical knowledge of software usage. The final exam will be in the question and answer format (not hands-on). Completing all the classwork, homework, and projects will be an immense help in completing the exams with a high score.

Absences: Students who are ill or have other reasons for missing class should email the instructor for an excused absence. The student is responsible for the material covered in class and any in-class work missed. Any assignments due at the beginning of class should be turned in online or at the start of the next class.

Late work: Assignments may be submitted up to one week late for an automatic penalty of 10%.

Email: Please use your UH email address for this course. Any information regarding the class will be sent to your UH email address, so check your email frequently. Email is also the preferred method of contacting the instructor.

Academic Dishonesty: Academic dishonesty includes, but is not limited to, file sharing (giving or receiving files between students), more than one student working on the same file, and copying work in full or in part from another student or other sources such as the Internet. Any student caught cheating will automatically receive a **0** for the assignment. In addition, a report of the incidence will be filed, which may result in the student being expelled from the school. For more information, please see the college catalog for the school’s policy on academic dishonesty.

Disabilities Accommodation Statement

If you have a physical, sensory, health, cognitive, or mental health disability that could limit your ability to fully participate in this class, you are encouraged to contact the Disability Specialist Counselor to discuss reasonable accommodations that will help you succeed in this class. Ann Lemke can be reached at 235-7448, lemke@hawaii.edu, or you may stop by Hale ‘Akoakoa 213 for more information.
