**Group Presentation**

Your group will investigate a campus or community problem and set forward a proposal that will resolve the problem. To accomplish this task, each group member is to conduct a fact finding interview with a campus/community expert connected to the problem or a person directly affected by the problem (BE TACTFUL!). As an example, if you were to look at campus security, you would want to interview at least one representative from security, administration, students who have been victims of campus crime, various organizations, alumni, etc. Summary transcripts of interviews should be included in an appendix to your proposal. In addition, each group will be expected to prepare at least one survey to sample the affected populations' perception of the problem. (You must sample at least 10 people). To use security as an issue again, you might put together a survey designed to measure how safe students feel on campus. In addition to these sources, groups are expected to gather at least five published sources on their topic. Sources may include the campus newspaper along with university or college publications such as catalogs, pamphlets, and other publications. Students are encouraged to consult the *Chronicle of Higher Education* and other academic sources to track national trends of the problem. With all information gathered and organized, you will present a formal proposal to the class. The proposal must be presented in an extemporaneous format and you must use visual aids to clarify ideas. Your group will turn in one outline on the day of your presentation. Your presentation will be ______ minutes. (To be announced in class)

The appendix of your group’s outline must include the following:

• Individual interviews – each transcript should have a cover page with the following information: the name of the interviewer, the name and position of the interviewee, and the time and date of the interview.
• A sample of the survey used to gather information, and a results page to identify the outcome of each question.
• A bibliography of all published sources.

**Course Schedule:**

**The following is a tentative course schedule for the semester. Changes in the schedule may be necessary and will be announced in class or via email.** Students are responsible for making note of any changes. All assignments are due at the beginning of class on the due date. Please do not attempt to complete assignments in class.
