I See below

Note: CR/NC grades require written instructor consent. Students must apply for CR/NC grading option at the Admissions Office by the posted deadline. If a student does not apply for CR/NC grading option at the Admissions Office by the required deadline and if s/he does not withdraw, a letter grade (A, B, C, D, F, N) will be assigned for the course.

Note: The W grade is given only when the student officially withdraws from the course by the posted deadline.

Note: The I grade is a temporary grade given at the instructor's option when a student has failed to complete a small part of a course because of circumstances beyond his or her control.

A student may qualify for the I grade if (a) they are unable to take the final exam and (b) taking the final exam could possibly raise their course grade. The I grade is given by student request and must be approved by the instructor.

ADDITIONAL INFORMATION

ABSENCES
Although I do not take attendance it is your responsibility to attend class. If you are absent you are responsible for any important announcements or assignments given during the class you missed. Refer to the class binder or meet with me during office hours to review any missed lecture material. Please do not send email requests for missed lecture material.

CALCULATORS
No calculators are allowed on exams. A calculator may be used on homework as needed.

EXAMS
There are no retests for exams. The final exam is cumulative. If you are unable to attend class on an exam day it may be possible for you to take the exam earlier than the specified day/time. If you unexpectedly must be absent on an exam day, notify me by 4:00 pm via voicemail or email. A make-up exam will be scheduled as long as it is completed before we go over the solutions in class.

If the percent earned on the final exam is higher than your lowest exam score, then your lowest exam score will be replaced with the percent earned on the final exam.

HOMEWORK
Homework will be completed online via the Connect Math program. You may need to do more than the assigned homework problems to become comfortable with the concepts and skills.

IN-CLASS ACTIVITIES

Windward Community College is an equal opportunity, affirmative action institution.
You will receive a grade for class participation via in-class activities. There are no make-up opportunities for missed in-class activities.

**GRADING**

To receive full credit for problems done on exams you must show sufficient work in a clear and organized manner. Messy and/or disorganized work will not receive full credit.

**CELL PHONES & OTHER DEVICES**

Cell phones and other electronic devices should be silenced prior to class.

**DISRUPTIVE BEHAVIOR & ACADEMIC HONESTY**

Please respect your fellow students and act accordingly. If a student takes part in disruptive behavior, the instructor reserves the right to exclude the student immediately from the class meeting. Examples are activated cell phones, texting, prolonged chattering, etc.

All exams must be done by your own individual effort. You may not consult with any classmates while taking exams. This would fall under the guidelines of academic integrity and any evidence of cheating will result in a score of 0 for all parties involved. An “F” will be assigned to students involved in cheating and will be reported to the Dean. See [http://windward.hawaii.edu/Policies/](http://windward.hawaii.edu/Policies/) for more information on the UH system-wide student conduct code.

1. Students will be exposed to the beauty, power, clarity and precision of formal systems.
2. Instructors will help students understand the concept of proof as a chain of inferences.
3. Instructors will teach students how to apply formal rules or algorithms.
4. Students will be required to use appropriate symbolic techniques in the context of problem solving, and in the presentation and critical evaluation of evidence.
5. The course will include computational and/or quantitative skills.
6. Instructors will build a bridge from theory to practice and show students how to traverse this bridge.

**FOUNDATIONS QUANTITATIVE REASONING HALLMARKS**

Math 103 fulfills 3 credits of the General Education requirements (Foundations: Quantitative) for both an A.A. degree at WCC and a Bachelor’s degree at 4 year UH institutions. Consequently, it meets the following hallmarks:

1. Provide students with theoretical Justifications for, and Limitations of, mathematical or statistical methods, and the formulas, tools, or approached used in the course.
2. Include application of abstract or theoretical ideas and information to the solution of practical quantitative reasoning problems arising in pure and applied research in specific disciplines, professional Settings, and/or daily and civic life.

*Windward Community College is an equal opportunity, affirmative action institution.*
3. Provide opportunities for practice and feedback that are designed to help students evaluate and improve quantitative reasoning skills by including a course component at least once per week with a maximum 30:1 student-to-teacher ratio.

4. Be designed so that student will be able to
   a. identify and convert relevant quantitative information into various forms such as equations, graphs, diagrams, tables, and/or words.
   b. select appropriate techniques or formulas, and articulate and evaluate assumptions of the selected approaches.
   c. apply mathematical tools and perform calculations (including correct manipulation of formulas).
   d. make judgments, create logical arguments, and/or draw appropriate conclusions based on the quantitative analysis of data, the assumptions made, the limitations of the analysis, and/or the reasonableness of results.
   e. effectively communicate those results in a variety of formats.
