COURSE TASKS

Working with the photographic process you will learn the potentials and limitations of a visual medium that has become an intrinsic part of our social, political, economic and cultural identity. Through specific assignments and projects you will learn and become proficient in the mechanics of exposure/development of the negative, enlarging and presentation of the final print and challenge your creativity. These assignments will also require you to think visually and to translate verbal and emotional ideas photographically. You will understand and experience the process of creativity and the time required to produce a finished photographic print. Through
lectures and critiques you will also be introduced to the history of photography and its positive and negative contributions to society. You will discover the visual vocabulary and language associated with a two-dimensional process and thereby become aware of the many meanings and messages of photographs. Finally, by understanding visual language, i.e., its vocabulary, structure, composition and poetry, you should be able to analyze and more fully appreciate any photograph.

**ASSESSMENT TASKS AND GRADING**

Four to six assignments will be given and must be completed. Class attendance is mandatory at each of the class critiques (both “work in progress” and final critiques). Since this is a sequential class to ART 107 and basic knowledge of the photographic process is assumed, you will work somewhat independently with a minimum of supervision. The critiques, discussions, and lectures become the main pedagogic experience. Your time spent making photographs and in the darkroom practicing, experimenting and building your skills become the main learning experience.

Evaluations will be based on: How well you approach and complete the assignments, your individual progress and art work, regular attendance, class participation, effort and creativity. Lectures, discussions and audio-visual materials are crucial to this course, therefore participation in these activities is required. If you miss a film, you need to watch it online (if available) and write a three page reaction paper. Your artwork should have a disciplined and professional sense of presentation, design, vitality and craftsmanship. Later assignments carry greater weight in determining final grade. Class attendance is compulsory at each of the class critiques. This is when we share our solutions to the assignments with the class as a group. (This is a very important part of the class and the learning experience). Individual appointments will be scheduled. Three tardies equal one absence. After three absences you grade will be lowered one letter.

A — credit for all assignments, regular attendance, class participation, excellent achievement in craftsmanship and creativity and a high degree of individual progress.
B — credit for all assignments, regular attendance, class participation, above average achievement in craftsmanship and creativity.
C — credit for all assignments, regular attendance.
D — credit for less than 5 assignments, regular attendance.
F — credit for less than 4 assignments or non-attendance during a critique.
W — official withdrawal from the course.
N — Used at the option of the instructor.
I — **NO INCOMPLETES** will be given in this course.
Cr — achievements of objectives of the course at ‘C’ level or higher.
NC — achievement of objectives of the course with less than minimal passing achievement.
Cr/NC option, must be in writing and declared by the end of the 10th week of classes.

"The 'N' grade indicates that the student has worked conscientiously, attended regularly, finished all work, fulfilled course responsibilities, and has made measurable progress. However, either the student has not achieved the minimal student learning objectives and is not yet prepared to succeed at the next level, or the student has made consistent progress in the class but is unable to complete the class due to extenuating circumstances, such as major health, personal or family emergencies." If you would like to request for N grade in this class, you must provide a formal letter of request to me no later than the time of final examination addressing how you have met the criteria for N grade. Then I will make a decision on whether or not you qualify for the N grade. The CR/NC grades require written instructor consent. Overall score of 70% or higher is consider CR and below 70%
is NC. Students must apply for CR/NC grading option at the Admissions Office by the posted deadline. If a student does not apply for CR/NC grading option at the Admissions Office by the required deadline and if s/he does not withdraw, a letter grade (A, B, C, D, F, N) will be assigned for the course. The W grade is given only when the student officially withdraws from the course by the posted deadline. The “I” grade is given only when the student officially withdraws from the course by the posted deadline. The “I” grade is given at the instructor’s option when a student has failed to complete a small part of a course because of circumstances beyond his or her control. The “I” grade is given by student request and must be approved by the instructor.
