Typing Spanish Accents and Punctuation Marks
On a Macintosh

To put an accent over a vowel, just hold the Option key down, type the letter e, release the Option key, and type the vowel.

- E, A gives you this: á
- E, Shift - A gives you this: Á

To put the tilde (~) over an n, as in señorita, just hold the Option key down, type the letter n, release the Option key, and type the letter n.

- N, N gives you this: ñ

Punctuation:
- gives you the upside-down ! like this: ¡
- Shift - gives you the upside-down ? like this: ¿
