

WCC COMMUNITY FORUM IN CHEMISTRY
Climate Change: Its Impact on Hawai'i
2-4 pm, Thursday, September 28, 2017
Hale Akoakoa 103, Windward Community College

Charles 'Chip' Fletcher, Ph.D.

Dr. Fletcher will discuss several aspects of climate change:

- Extreme weather
- Sea-level rise
- Reef bleaching
- Ecosystem impacts
- Declining rainfall
- El Niño
- Hawai'i's weather system
- Natural climate change

These topics will be discussed in an interactive question and answer format. This is free and open to the public.

Charles "Chip" Fletcher is **Associate Dean for Academic Affairs and Professor of Geology and Geophysics at the School of Ocean and Earth Science and Technology (SOEST), University of Hawai'i at Manoa.** He has published three books: 1) *Living on the Shores of Hawai'i: Natural Hazards, the Environment, and Our Communities*, 2) *Physical Geology: The Science of Earth*, and 3) *Climate Change: What the Science Tells Us*.

This forum is co-sponsored by Windward Community College and the American Chemical Society-Hawai'i Section
