- **Business Plan**

Over the course of the semester, students are required to create a written Business Plan for a business that they may be interesting in starting or acquiring. (**Note: Business Plans for students enrolled in BUS 122B will be focused on a sustainable agriculture operation**).

The instructor will provide students with examples of business plans from different industries. Students are not expected to use any particular format, and may choose the format that best communicates their ideas. A business plan serves several purposes, two of which are 1) to allow the business owner(s) to organize their ideas in a systematic manner, and 2) to function as marketing tool when seeking out investor capital, lender financing, and customer buy-in. All student business plans should provide the reader with detail in the following areas:

1. Product/Service Description
2. Industry and Marketplace Analysis
3. Marketing Strategy
4. Operational Strategy
5. Development Strategy
6. Roll-Out-Plan
7. Management Team
8. Risk Analysis
9. Financial Plan

Student business plans should also include detailed:

1. Financial Statements
2. Break-even analysis
3. Development Timelines
4. Management Team Resumes
5. Any other supporting documents and information.

All business plans are due by **April 1, 2014**.

- **EXAMS**

Over the length of the semester, we will discuss several business concepts during our class meetings. The Midterm Examination and the Final Examination will be based on the material covered in these class discussions along with material from the assigned reading. Prior to each Examination, the instructor will provide the students with a review of the key concepts to focus on.
