

MICRO 130 GENERAL MICROBIOLOGY

(CRN63039)

MW, 11:30 am – 12:45 pm, Hale 'Imiloa 123

INSTRUCTOR:	Hongwei Li Ph.D.
OFFICE HOURS:	Wednesday 1:00 pm – 2:00 pm, or by appointment
OFFICE:	Hale 'Imiloa 107
TELEPHONE:	236-9104
EMAIL:	hli@hawaii.edu
EFFECTIVE DATE:	Spring 2015

WINDWARD COMMUNITY COLLEGE MISSION STATEMENT

Windward Community College is committed to excellence in the liberal arts and career development; we support and challenge individuals to develop skills, fulfill their potential, enrich their lives, and become contributing, culturally aware members of our community.

CATALOG DESCRIPTION

Fundamentals of microbiology: growth, development, and classification of bacteria, viruses, protozoa, fungi and algae; roles of microorganisms in the environment and human affairs; medical microbiology, immunology, and applied microbiology for food sanitation and public health.

WCC: AA (DB), CA Agripharmatech

STUDENT LEARNING OUTCOMES

1. Describe the main morphological characteristics, growth, reproduction and classification of algae, bacteria, fungi, protozoa, viruses and helminthes
2. Discuss etiologies, reservoirs of infection, modes of transmission, signs, symptoms, and treatments and/or methods of prevention of common infectious diseases of humans
3. Describe the basic principles of molecular genetics as they relate to cell division, mutation, genetic engineering, protein synthesis, bacterial virulence, and antibiotic resistance
4. Describe pathogenicity, immunity and allergies

COURSE TASKS, ASSESSMENTS AND GRADING

Course Tasks:

1. Class attendance is mandatory.
2. Students must be able to access / utilize Lualima via the internet for this course.
3. Read each appropriate Chapter prior to class session
4. Participate group discussions and projects
5. Complete homework assignments and review study guides

Assessments:

1. There generally will be 5 assignments; late submission of assignments will result in point deduction.
2. Four exams (3 midterms and one final) will be administered during the semester. Each exam will cover the lectures and chapters assigned since the preceding exam was given. Even though the exams are not cumulative, an understanding of previously covered material is generally needed to answer questions on each exam. Exams will consist of multiple choice, fill in the blank, matching and essay questions.

Make-up exams will only be given with a valid reason (i.e. medical or other emergency) on the FIRST day you return to class. In such a circumstance, you should make every reasonable attempt to contact the instructor as soon as possible before the exam. There is *No early or make-up exam for the final.*

Grading:

The total possible points:

1. Assignments (5)	100 points
2. Exams (4)	400 points
<hr/>	
Total	500 points

Letter grades will be assigned as follows:

- A - - - 90% or above in total points.
- B - - - 80-89% of total points.
- C - - - 70-79% of total points.
- D - - - 60-69% of total points.
- F - - - Below 60% of total points

I (incomplete) grade is given at the instructor's option when a student has failed to complete a small part of a course because of circumstances beyond his or her control. The student is expected to complete the course by the designated deadline in the succeeding semester. If this is not done, the I grade will revert to the contingency grade identified by the instructor

LEARNING RESOURCES

1. **Textbook:** Tortora, G.J., B.R. Funke and C.L. Case. 2011. *Microbiology – An Introduction*. Pearson Benjamin Cummings.
2. **Textbook Companion Website, MasteringMicrobiology:** www.masteringmicrobiology.com
3. **Lecture materials / Hand-outs:** <https://laulima.hawaii.edu/portal>

DISABILITIES ACCOMMODATION STATEMENT

If you have a physical, sensory, health, cognitive, or mental health disability that could limit your ability to fully participate in this class, you are encouraged to contact the Disability Specialist Counselor to discuss reasonable accommodations that will help you succeed in this class. Ann Lemke can be reached at 235-7448, lemke@hawaii.edu, or you may stop by Hale 'Akoakoa 213 for more information.

MICR130 Schedule Spring 2015

Date	Lecture topic	Chapter
Jan. 12	Microbial world and you	1
Jan. 14	Chemical principles	2
Jan. 19	Holiday	
Jan. 21	Chemical principles	2
Jan. 26	Microscope	3
Jan. 28	Prokaryotes	4
Feb. 2	Prokaryotes	4
Feb. 4	Eukaryotes	4
Feb. 9	Microbial metabolism	5
Feb. 11	Microbial metabolism	5
Feb. 16	Holiday	
Feb. 18	EXAM 1	1 – 5
Feb. 23	Microbial growth	6
Feb. 25	Microbial growth	6
Mar. 2	Control of microbial growth	7
Mar. 4	Microbial genetics	8
Mar. 9	Microbial genetics	8
Mar. 11	Biotechnology & DNA technology	9
Mar. 16	Biotechnology & DNA technology	9
Mar. 18	EXAM 2	6-9
Mar. 24/26	Spring Recess	
Mar. 30	Classification	10
Apr. 1	Prokaryotes	11
Apr. 6	Prokaryotes	11
Apr. 8	Eukaryotes: fungi, algae, protozoa	12
Apr. 13	Viruses, viroid and prions	13
Apr. 15	EXAM 3	9 - 13
Apr. 20	Principles of disease & epidemiology	14
Apr. 22	Mechanisms of pathogenicity	15
Apr. 27	Non-specific defenses of the host	16
Apr. 29	Specific defenses of the host	17
May. 4	Disorders of the immune system	19
May. 6	Vaccines and antimicrobial drugs	18/20
May. 13	EXAM 4 (Final)	14-20

(Please note that this schedule is subject to change)
