WINDWARD COMMUNITY COLLEGE MISSION STATEMENT

Windward Community College offers innovative programs in the arts and sciences and opportunities to gain knowledge and understanding of Hawai‘i and its unique heritage. With a special commitment to support the access and educational needs of Native Hawaiians, we provide O‘ahu’s Ko‘olau region and beyond with liberal arts, career and lifelong learning in a supportive and challenging environment — inspiring students to excellence.

CATALOG DESCRIPTION

An introductory course with emphasis on principles of human behavior. Topics covered include motivation, learning, perception, emotion, development, personality, states of consciousness, group processes, problem solving and thinking, and methods of inquiry. (3 hours lecture)

Activities Required at Scheduled Times Other than Class Times

For this course, in addition to attending class, you are expected to complete a number of assignments outside of class time, including reading the textbook, online activities, studying for exams, and completing various short written activities.

STUDENT LEARNING OUTCOMES

The student learning outcomes for the course are:

1. Recognize the study of psychology as a science.
2. Discuss the biological and environmental basis of human behavior.
3. Integrate the basic perspectives, concepts, principles, and general information comprising the field of psychology.

COURSE TASKS.

In addition to our face-to-face lectures, we have two websites that we will use throughout the semester, Lulima and LaunchPad. Lulima is WCC’s online course management system, which you might have used in previous courses. On Lulima, you will find our official class gradebook, a resource folder containing important class materials (such as exam review sheets and assignment instruction sheets), class announcements, and our syllabus along with a number of other useful items. Access to Lulima requires your regular school username and password.

Our second website, LaunchPad, is used in conjunction with our class textbook. Access to LaunchPad comes packaged with your book through the bookstore. If you purchase your book elsewhere, you will need to purchase access to LaunchPad separately, which you can do using

the link below. Access to LaunchPad is necessary to complete some of the graded assignments for our course. You can temporarily access LaunchPad for free by clicking the “Temporary Access” button on the website (see below for address). Your temporary access will expire 21 days after your first login. The temporary access comes with an eBook, so you can start on our assignments before you have a chance to stop by the bookstore.

When you register for LaunchPad, please use your name of record with the school, not a nickname, so that I may match your work to the gradebook.

Follow the steps below to get started with LaunchPad

1. Go to <http://www.macmillanhighered.com/launchpad/exploring9edsm5/2868540>
2. **Bookmark** the page to make it easy to return to.
3. If you have an **access code**, click the button "Enter Your Student Access Code" in the upper right corner and follow the instructions.
4. If you don't have an access code, either click the "**Purchase Access**" or "**Temporary Access**" button.
5. If you have any problems registering, purchasing, or logging in, please contact **Technical Support**. You can reach a representative 24 hours a day, 7 days a week: through our [online form](#), by chat or from 9 a.m. to 3 a.m. EST, 7 days a week by phone at (800) 936-6899
System Requirements: www.macmillanhighered.com/sysreq
6. Firefox is the recommended browser.

You are responsible for keeping up in this class: your diligence in this matter is essential to your success. No late work is accepted in this class without written verification of extenuating medical or legal circumstances.

You will have an opportunity to demonstrate what you've learned in this course using a variety of different formats:

Exams: 4 x 100 points
Learning Curves: 10 x 10 points
Writing Assignment: 5 x 20 points

Exams (100 points per exam, 400 points total):

Four non-cumulative exams will be given throughout the semester, each worth 100 points. Exams are in-class and closed notes, closed book. The textbook, in-class movies, lecture material, class discussions, and class activities are fair game for exam questions. As with any college course, we will not have time to cover all the textbook material in class. Information from the book that is not covered in class is fair game for the exams. Question format may include multiple choice, true/false, short answer, and essay questions. Make-up exams are given only in cases of serious and documented emergencies. This determination is made by me. Make-up exams must be completed in a timely fashion. If you anticipate a problem, please see me as soon as possible. A review sheet for each exam will be available on Laulima.

Learning Curve Activities (10 points per activity, 100 points total)

You have reached the college level, which means you are capable of reading a college level text and understanding a good deal of its material on your own. I don't intend to waste your time or money by going over this information in class with you (unless students have specific questions on the material). Instead, I will focus our limited class time on the more complicated concepts. In order for these concepts to make sense, you'll need a basic understanding of the material before arriving in class. To encourage you to actually do the assigned reading (and to complete it before class), for each chapter you'll need to successfully complete a Learning Curve activity on each chapter. These comprehension checks are completed online on the LaunchPad website and should be submitted before class time on the day a reading chapter is due. For example, the Learning Curve activity for chapter 1 needs to be submitted by 10 a.m. on Wednesday, January 13th. Late Learning Curve activities are not accepted.

In order to successfully submit a Learning Curve activity, you need to correctly answer a set number of questions, meaning that students with a better comprehension of the material will need to answer fewer questions. These Learning Curve activities are open-book, open-notes, and the website will provide excerpts of the text for you to review if you struggle with a question. Each successful, on-time activity submission is worth 10 points. Make-up Learning Curve activities are not available. There are 11 assigned Learning Curves and I will count your highest 10 scores; this means you can skip one Learning Curve with penalty.

When signing up for LaunchPad, make sure to use the website address provide above and to confirm that you are registering for the correct course. There are a number of fall LaunchPad sections listed under my name. Our course is labeled 'PSY 100 WCC Survey of Psychology Spring 2016 MW 10 – 11.15 CRN 61428'. If you sign up for the wrong course, I won't be able to see your scores so you won't earn credit for your work.

When you complete a Learning Curve, please take a screen shot of the completion screen and also confirm that your score is available in the LaunchPad gradebook. The screen shot will serve as your proof of completion if there is a website error, in which case, you will need your screen shot to receive credit.

Writing Assignments (20 points per assignment, 100 points total):

Throughout the semester, you will complete five short writing assignments aimed at deepening your interest in and understanding of psychology. Each assignment is worth 20 points and should be 1 page long (excluding headers and references). Assignment 1 involves creating, administering, and analyzing a five question survey. Assignment 2 involves locating, reading, and summarizing an academic article related to psychology. Assignment 3 involves locating, reading, and analyzing a popular press article related to psychology. Assignment 4 involves watching a Hollywood film that includes a character with a mental illness and then analyzing how correct Hollywood's portrayal of the mental illness was. Assignment 5 involves selecting a developmental theory and applying said theory to a real life person or fictional character. Additional details and grading rubrics for all writing assignments are available on Laulima.

ASSESSMENT TASKS AND GRADING

Rubrics for each assignment are available on Laulima.

Students often worry about their progress in a course, and sometimes ask their instructors to calculate their grade for them. In this course, my goal for the grading system is to be as clear as possible so that you are always aware of your standing in the course. I have provided this worksheet for you to fill in your exam and assignment grades as the semester progresses.

Requirement	Points Earned	Points Possible	
Exam 1		100	
Exam 2		100	
Exam 3		100	
Exam 4		100	
Writing Assignment 1		20	
Writing Assignment 2		20	
Writing Assignment 3		20	
Writing Assignment 4		20	
Writing Assignment 5		20	
LearningCurve Ch. 1*		10	
LearningCurve Ch. 2*		10	
LearningCurve Ch. 6*		10	
LearningCurve Ch. 7*		10	
LearningCurve Ch. 8*		10	
LearningCurve Ch. 14*		10	
LearningCurve Ch. 9*		10	
LearningCurve Ch. 4*		10	
LearningCurve Ch. 10*		10	
LearningCurve Ch. 13*		10	
LearningCurve Ch. 12*		10	
Total:		/600	= %

*Remember to count your highest 10 of 11 LearningCurve scores toward your final grade

Grading:

I will use the following scale to determine your final grades:

- A = 600.0 – 540 points [percentage of 90 – 100%]
- B = 539.9 – 480 points [percentage of 80 – 89.9%]
- C = 479.9 – 420 points [percentage of 70 – 79.9%]
- D = 419.9 – 360 points [percentage of 60 – 69.9%]
- F = Below 360 points [percentage of 0 – 59.9%]

LEARNING RESOURCES

Additional Information

- I am here to help you succeed in this course. Please don't hesitate to email me or stop by my office if you have any questions, concerns, or problems.
- Attendance: Attendance will not be taken in class. However, attending lectures and taking notes (in addition to keeping up with the reading in the textbook) are fundamental for your success in this course. Lecture slides for the class will not be posted online. However, you are always welcome to see the slides and copy down any notes that you miss during office hours or by appointment. There may be in-class opportunities to earn extra points towards your course grade. Those not in attendance, for any reason, aren't able to make-up said points.
- Plagiarism/Cheating: I take both plagiarism and cheating very seriously. If I believe you have plagiarized (intentionally or unintentionally) or cheated, you will earn a zero for that assignment, no exceptions. A second instance of either will result in failure of the course (i.e. two instances of plagiarism, two instances of cheating or an instance of plagiarism and an instance of cheating).

- Late assignments: Late assignments will not be accepted, excepted in cases of serious documented emergencies. This determination is made by me; please contact me as soon as you anticipate a problem
- Assignment submission: Assignments should be submitted as hard copies. Electronic copies will be accepted only as a last resort. If you need to email me an assignment, it is your responsibility to ensure that the proper document was received on time. I will send a confirmation email indicating that the file was received. If the file is late or does not open properly, it will not be counted as on-time and you will not receive credit for the assignment. Given the potential for errors with electronic submissions, I strongly recommended that you do not submit assignments electronically.
- Course format: Class sessions will involve a combination of student driven lectures, professor driven lectures, class discussions, in-class activities and experiments, group work and instructional media clips. Students are expected to complete assigned readings and activities before coming to class. Active participation during class is expected and will provide students with a deeper and more complete understanding of psychological principles. Failure to prepare or participate will not directly impact your grade (i.e. you will not lose points for not participating) but is likely to indirectly impact your grade (i.e. students who participate actively are more likely than non-participants to comprehend the material and therefore do better on the exams).
- I strongly uphold the University of Hawai'i's non-discrimination policy in my class. Any discriminatory acts or language on the basis of race, religion, sex, age, national origin, ancestry, disability, or sexual orientation will NOT be tolerated. We will maintain our classroom as a safe environment for all.

MySuccess

At Windward Community College, we want every student to be successful. To help with this, early intervention will be offered through MySuccess. MySuccess is a system wide effort that seeks to support students early in the semester when they first begin experiencing difficulty in class. If I feel that you're having difficulty in our class within the first few weeks of the semester (e.g. missing assignments or low assignment scores) and working together shows that you would really benefit from being connected to supportive resources outside of the classroom, I may refer you to an assigned counselor. Once referred, MySuccess will:

- Call you and send an email to your Hawaii.edu account to let you know about my referral; and
- Have a Counselor follow up with you by phone or by email to find out what kinds of help you might need and connect you with the necessary resources to help you devise a strategy for success.

I will not refer you without telling you. If I do refer you, know that I am doing so in an effort to connect you with all of the help you may need to do well this semester as your success is important to me.

DISABILITIES ACCOMMODATION STATEMENT

If you have a physical, sensory, health, cognitive, or mental health disability that could limit your ability to fully participate in this class, you are encouraged to contact the Disability Specialist Counselor to discuss reasonable accommodations that will help you succeed in this class. Ann Lemke can be reached at 235-7448, lemke@hawaii.edu, or you may stop by Hale 'Akoakoa 213 for more information.
