WINDWARD COMMUNITY COLLEGE MISSION STATEMENT

Windward Community College offers innovative programs in the arts and sciences and opportunities to gain knowledge and understanding of Hawai'i and its unique heritage. With a special commitment to support the access and educational needs of Native Hawaiians, we provide O'ahu's Ko'olau region and beyond with liberal arts, career and lifelong learning in a supportive and challenging environment — inspiring students to excellence.

CATALOG DESCRIPTION

The scientific study of the interaction between human culture and plants, including the interrelationship of botany, socio-economics, belief systems and history that have shaped the cultural uses of plants in Hawaii, as well as Asia and/or the Pacific. Lecture/field work/field trip course with service-learning option (3 hrs. lecture).

Activities Required at Scheduled Times Other Than Class Times

1. Read assigned chapter or handouts prior to class sessions
2. Field trips, field work and/or service learning
3. Write field trip report and/or service learning report
4. Extra curricular activities (will be discussed on the first day of class)
5. Computer and internet access
6. Homework assignments

REQUIREMENT COURSE SATISFIES:

AT WCC: (<http://windward.hawaii.edu/Courses/BOT105/>)

- [Associate in Arts - Biological Sciences \(DB\)](#)
- [Associate in Arts - Natural Sciences Lab \(DY\)](#)
- CA Agripharmatech: Ethnopharmacognosy (Elective)
- UHM (HAP focus)

STUDENT LEARNING OUTCOMES

1. Identify plants of major importance in various aspects of Hawaiian, Asian and Pacific Islands cultures.
2. Utilize the plants for food, medicine, and other material goods.

COURSE TASKS

Multidisciplinary teaching and learning approach through lecture-discussions, videos, fieldwork, field trips, guest speakers, research presentations, and service learning.

Research Project:

A project appropriate to the course must be researched and presented in the class by the student, using materials and techniques as nearly like the ancient Hawaiian's as possible. Judicious substitutions may be made and will, in some cases, be necessary. Actual plant specimen, or posters or finished products or cooking or lei making demonstration must be presented in the class.

You can select the following topics:

- Handcrafted wooden bowls or platters
- Fish nets and fishing implements
- Cordage and articles using cordage
- Implements for games and sports or agriculture
- Articles for clothing, sandals, rain cape etc.
- Food preparation (Hawaiian, Asian/Pacific Islander styles)
- Medicine preparation (Hawaiian, Asian/Pacific Islander styles)
- Plant bioproducts (fermented drink, teas etc.)
- Lei making, basketry *for example!

Service Learning:

Students are encouraged to participate in Service Learning during the semester. Participants will submit a journal and a final summary describing their experiences. Two hours per week of active participation for a ten-week period is required to perform fieldwork, or lab work, or working with students and the community members under the supervision of a mentor.

Learning Objectives:

- Apply theory into practice in the lab/field
- Find and develop ways to solve problems encountered in or during the service
- Help to foster civic responsibility
- Understand the process of learning by “giving” (volunteering)

Activities:

- Participate in assigned activities regularly, promptly and responsibly (a minimum of 20 hours per semester)
- Keep a journal of your activities
- Discuss monthly the progress of your work with your mentor and instructor
- Submit a one page summary of student learning experiences / activities

Service learning guidelines:

- If you choose to volunteer for this service-learning project, please see me during the first 2 weeks of class to discuss your eligibility, to sign a contract, and Assumption of Risk and Release, and any other necessary documents.
- You are expected to conduct yourself in a responsible manner when you do your service in the classroom, laboratory, field and community.
- If you have problems or concern about your service in the community, you should talk to your on-site supervisor or instructor.
- The deadline for submitting your service learning summary and journal is the last day of class instruction.
- See this site for some options: <http://servicelearning.socialsciences.hawaii.edu>

Have fun providing service and learning at the same time!

ASSESSMENT TASKS AND GRADING

Evaluation

Competency in the subject matter of the course will be evaluated through in-class examinations covering materials discussed in class, handouts, and by satisfactory completion of a research or service-learning project. Be prepared to respond to all readings, complete all assignments on time.

Grading

The grades are assigned as follow:

Lecture-discussion participation, attendance.....	25 points
Quiz 1: Morphological generative.....	100 points
Quiz 2: Morphological vegetative.....	100 points
Lecture Exam I (plant uses part 1).....	100 points
Lecture Exam II/final exam (plant uses part 2, non-cumulative).....	100 points
Field trip report	25 points
Garden work (BMGC) & planting.....	25 points
Extra-curricular activities.....	25 points

Ho'olaulea! 7 October 2017!

Research presentation	25 points
