

## **MICRO 130 GENERAL MICROBIOLOGY**

(CRN64029)

TR, 1:00 pm – 2:15 pm, Hale 'Imiloa 123

<b>INSTRUCTOR:</b>	Hongwei Li Ph.D.
<b>OFFICE HOURS:</b>	Tuesday 11:50 am – 12:50 pm, walk-in or by appointment
<b>OFFICE:</b>	Hale 'Imiloa 107
<b>TELEPHONE:</b>	236-9104
<b>EMAIL:</b>	hli@hawaii.edu
<b>EFFECTIVE DATE:</b>	Spring 2017

### **WINDWARD COMMUNITY COLLEGE MISSION STATEMENT**

*Windward Community College is committed to excellence in the liberal arts and career development; we support and challenge individuals to develop skills, fulfill their potential, enrich their lives, and become contributing, culturally aware members of our community.*

### **CATALOG DESCRIPTION**

Fundamentals of microbiology: growth, development, and classification of bacteria, viruses, protozoa, fungi and algae; roles of microorganisms in the environment and human affairs; medical microbiology, immunology, and applied microbiology for food sanitation and public health.

#### ***REQUIREMENT COURSE SATISFIES:***

AT WCC:

- AA Lib Arts (DB, DY)
- Certificate of Achievement in Agripharmatech: Ethnopharmacognosy

AT UHM:

- Bachelor of Science Degree Program in Plant and Environmental Biotechnology.  
Accepted as an elective for the following specializations: Plant Biotechnology, General Biotechnology, and Environmental-Microbial Biotechnology.

### **STUDENT LEARNING OUTCOMES**

1. Describe the main morphological characteristics, growth, reproduction and classification of algae, bacteria, fungi, protozoa, viruses and helminthes
2. Discuss etiologies, reservoirs of infection, modes of transmission, signs, symptoms, and treatments and/or methods of prevention of common infectious diseases of humans
3. Describe the basic principles of molecular genetics as they relate to cell division, mutation, genetic engineering, protein synthesis, bacterial virulence, and antibiotic resistance
4. Describe pathogenicity, immunity and allergies

### **COURSE TASKS, ASSESSMENTS AND GRADING**

#### **Course Tasks:**

1. Class attendance is mandatory.

2. Students must be able to access / utilize Laulima via the internet for this course.
3. Read each appropriate chapter prior to class session
4. Participate course-based research projects and group discussions.
5. Complete quizzes/homework assignments and review study guides

### Assessments:

1. There will be one essay assignment; late submission of the assignment will result in point deduction.
2. There are ten quizzes/assignments will be given through Laulima, and the time will be announced at least one day ahead.
3. Four exams (3 midterms and one final) will be administered during the semester. Each exam will cover the lectures and chapters assigned since the preceding exam was given. Even though the exams are not cumulative, an understanding of previously covered material is generally needed to answer questions on each exam. Exams will consist of multiple choices, fill in the blank, matching and essay questions.

*NOTE: Make-up quizzes/exams will only be given with a valid reason (i.e. medical or other emergency) on the FIRST day you return to class. In such a circumstance, you should make every reasonable attempt to contact the instructor as soon as possible before the exam. There is *No early or make-up exam for the final.**

4. Completion of a scientific report on a course-based research project: you are required to conduct research on a given topic and write a scientific report.

### Grading:

The total possible points:

1. Essay (1)	20	points
2. Quizzes/ assignments (10)	200	points
3. Exams (4)	400	points
4. Scientific Report (1)	80	points

---

Total	700	points
-------	-----	--------

Letter grades will be assigned as follows:

- A - - - 90% or above in total points.
- B - - - 80-89% of total points.
- C - - - 70-79% of total points.
- D - - - 60-69% of total points.
- F - - - Below 60% of total points

I (incomplete) grade is given at the instructor's option when a student has failed to complete a small part of a course because of circumstances beyond his or her control. The student is expected to complete the course by the designated deadline in the succeeding semester. If this is not done, the I grade will revert to the contingency grade identified by the instructor

### LEARNING RESOURCES

1. Required Textbook: Tortora, G.J., B.R. Funke and C.L. Case. *Microbiology – An Introduction*. Pearson Benjamin Cummings. 11<sup>th</sup> or 12<sup>th</sup> edition

2. Reference Textbook Companion Website, *MasteringMicrobiology*:

www.masteringmicrobiology.com

3. Course materials: <https://laulima.hawaii.edu/portal>

### DISABILITIES ACCOMMODATION STATEMENT

*If you have a physical, sensory, health, cognitive, or mental health disability that could limit your ability to fully participate in this class, you are encouraged to contact the Disability Specialist Counselor to discuss reasonable accommodations that will help you succeed in this class. Ann Lemke can be reached at 235-7448, [lemke@hawaii.edu](mailto:lemke@hawaii.edu), or you may stop by Hale 'Akoakoa 213 for more information.*

<b>Date</b>	<b>Lecture topic</b>	<b>Chapter</b>
Jan. 10	Microbial world and you	1
Jan. 12	Chemical principles	2
Jan. 17	Chemical principles	2
Jan. 19	Chemical principles/ Microscope	2/3
Jan. 24	Prokaryotes	4
Jan. 26	Prokaryotes	4
Jan. 31	Eukaryotes	4
Feb. 02	Microbial metabolism	5
Feb. 07	Microbial metabolism	5
<b>Feb. 09</b>	<b>EXAM 1</b>	<b>1-5</b>
Feb. 14	Microbial growth	6
Feb. 16	Control of microbial growth	7
Feb. 21	Microbial genetics	8
Feb. 23	Microbial genetics	8
Feb. 28	Microbial genetics	8
Mar. 02	Biotechnology & DNA technology	9
Mar. 07	Biotechnology & DNA technology	9
<b>Mar. 09</b>	<b>EXAM 2</b>	<b>6-9</b>
Mar. 14	Classification	10
Mar. 16	Prokaryotes	11
Mar. 21	Eukaryotes: fungi, algae, protozoa	12
Mar. 23	Eukaryotes: fungi, algae, protozoa	12
<i>Mar. 28 / Mar. 30</i>	<i>Spring Recess</i>	
Apr. 04	Viruses, viroid and prions	13
Apr. 06	Viruses, viroid and prions	13
<b>Apr. 11</b>	<b>EXAM 3</b>	<b>9-13</b>
Apr. 13	Principles of disease & epidemiology	14
Apr. 18	Mechanisms of pathogenicity	15
Apr. 20	Non-specific defenses of the host	16
Apr. 25	Specific defenses of the host	17
Apr. 27	Disorders of the immune system	19
May 02	Vaccines and antimicrobial drugs	18/20
<b>May 09</b>	<b>EXAM 4 (Final, 1:00 pm - 3:00 pm)</b>	<b>14-20</b>

(Please note that this schedule is subject to change)
