### **CATALOG DESCRIPTION**

Fundamentals of microbiology: growth, development, and classification of bacteria, viruses, protozoa, fungi and algae; roles of microorganisms in the environment and human affairs; medical microbiology, immunology, and applied microbiology for food sanitation and public health.

### **Activities Required at Scheduled Times Other Than Class Times**

Self-study and homework assignments.

### **Requirement course satisfies:**

- DB for AA in Liberal Arts
- Required course for Certificate of Achievement in Agripharmatech
- Elective for AS in Natural Sciences

### **STUDENT LEARNING OUTCOMES**

1. Describe the main morphological characteristics, growth, reproduction and classification of algae, bacteria, fungi, protozoa, viruses and helminthes
2. Discuss etiologies, reservoirs of infection, modes of transmission, signs, symptoms, and treatments and/or methods of prevention of common infectious diseases of humans
3. Describe the basic principles of molecular genetics as they relate to cell division, mutation, genetic engineering, protein synthesis, bacterial virulence, and antibiotic resistance
4. Describe pathogenicity, immunity and allergies

### **COURSE TASKS, ASSESSMENTS AND GRADING**

#### **Course Tasks:**

1. Read each appropriate chapter prior to class session

2. Participate course-based research projects and group discussions.
3. Complete quizzes/homework assignments and review study guides

### Assessments

1. There will be one essay assignment; late submission of the assignment will result in point deduction.
2. There are 5 quizzes/assignments will be given, and the time will be announced at least one day ahead.
3. Three exams (2 midterms and a final) will be given during the semester. Each exam will cover the lectures and chapters assigned since the preceding exam was given. Even though the exams are not cumulative, an understanding of previously covered material is generally needed to answer questions on each exam. Exams will consist of multiple choices, fill in the blank, matching and short answer questions.

*NOTE: Make-up quizzes/exams will only be given with a valid reason (i.e. medical or other emergency) on the FIRST day you return to class. In such a circumstance, you should make every reasonable attempt to contact the instructor as soon as possible before the exam. There is No early or make-up exam for the final.*

4. Completion of a scientific report on a course-based research project: you are required to conduct research on a given topic and write a scientific report.

### Grading

The total possible points:

<i>Essay (1)</i>	<i>50</i>	<i>points</i>
<i>Quizzes /Assignments (5)</i>	<i>100</i>	<i>points</i>
<i>Exams (3)</i>	<i>300</i>	<i>points</i>
<i>Research topic presentation (1)</i>	<i>50</i>	<i>points</i>

---

Total	500	points
-------	-----	--------

Grading is based on the percentage of total points earned. Final Grades will be assigned as follows:

- A - - - 90% or above in total points.
- B - - - 80-89% of total points.
- C - - - 70-79% of total points.
- D - - - 60-69% of total points.
- F - - - Below 60% of total points

I (incomplete) grade is given at the instructor's option when a student has failed to complete a small part of a course because of circumstances beyond his or her control. It is **your responsibility** to contact the instructor to make up the incomplete work with a minimum level (or better) of achievement. Failure to satisfactorily make up incomplete work within the appropriate time period will result in a grade change for "I" to the contingency grade identified by the instructor.
