WINDWARD COMMUNITY COLLEGE MISSION STATEMENT

Windward Community College offers innovative programs in the arts and sciences and opportunities to gain knowledge and understanding of Hawai'i and its unique heritage. With a special commitment to support the access and educational needs of Native Hawaiians, we provide the Ko'olau region of O'ahu and beyond with liberal arts, career and lifelong learning in a supportive and challenging environment — inspiring students to excellence.

CATALOG DESCRIPTION

This course offers an introduction to the fundamentals of video game and application design, development, and deployment through project-based challenges that culminate in a publishable application (2 hours lecture, 3 hours lab.)

STUDENT LEARNING OUTCOMES

The student learning outcomes for the course are:

1. •Design and execute a coding project for publication on the public iOS/Android/PC market.
2. •Identify and apply good industry practices for project and time management as well as technical skill in completing coding projects
3. •Communicate and collaborate in a group professional team environment.

COURSE CONTENT

Concepts or Topics

- 2D Image Editing
- 3D Computer-aided Design
- Game Design and Scripting

Skills or Competencies

1. Software: Unity 3D
2. Software: Adobe Photoshop
3. Software: Autodesk Maya

COURSE TASKS

Classes will be a combination of contextual lectures, sample tasks completed together as a class, and self directed projects adapting the skills learned through previous tasks. Project requirements will be developed from the sample tasks.

ASSESSMENT TASKS AND GRADING

Students will be primarily evaluated on a series of game projects. Project minimum and optional criteria will be outlined before each project. Students are encouraged to add their own features to each project.

Completing minimum requirements gives 2 points per project. Sufficiently completing optional criteria will give a 3 and exceptional effort may be given a 4. Incomplete projects will be given a 0 or 1 depending on the amount of completion.

Additionally general participation and overall engagement throughout the semester will be assessed and included on the same scale as other assignments.

Final grading will be determined by the average of scores with 2.0 being the passing mark.

ADDITIONAL INFORMATION

- This is a hands-on class focused on learning practical abilities.
- As an introductory class your primary goal is to start developing a personal toolbox of skills. More tools will equate to more options when expressing your creativity.
- Failure is always an option, they are learning opportunities. If something doesn't work then find out why. Experiment often, but always remember to save your files first.
- The software used in this class are like good games: they are easy to learn but difficult to master. Time and effort spent with them will continually increase your proficiency.
- MySuccess: Students may be referred for extra help or advising through MySuccess. Students can also explore resources at MySuccess.Hawaii.edu and windward.hawaii.edu/MySuccess
