REQUIRED MATERIAL

MyLab Math (MLM) Online Program. MLM comes with the eBook Calculus 3rd ed., by Briggs. MLM registration will be through IDAP.

This course will be participating in the Bookstore’s Interactive Digital Access Program (IDAP). Through this program, you will access your course material digitally, and it will be available to you by the first day of class.

A charge for the digital course material through IDAP will be added to your MyUH account.

You have the option to opt-out of receiving your course material through IDAP. By opting-out, you will lose access to the course material and the charge will be refunded on your MyUH account. If you do not opt-out, the charge will stay on your MyUH account. Any unpaid charges on your MyUH account will turn into a hold. Holds on your account will prevent you from accessing various services within the University.

You may opt-out by visiting your unique Inclusive Access Student Portal, which can be found in your IDAP welcome email (Subject Line: “IMPORTANT: You have enrolled in an IDAP Course”).

For more information regarding IDAP, please contact your campus bookstore.

Midterms Exams
There will be two computer-based midterm exams. The exams are timed (3 hours per exam). The exams will be available for 3 to 5 days. You may take the exam on any computer. There are no re-takes, make-ups, or extensions for the exams. Students who fail to take an exam during the assigned period will receive a zero score on the exam.

Note: If the score earned on the final exam is higher than the lowest unit exam score, then the lowest unit exam score will be replaced with the score earned on the final exam. If a student misses an exam, then that exam will be counted as the lowest exam score. Only one exam score can be replaced by the score earned on the final exam.

MyLab Math (MLM) Homework
Computer-based homework submitted online through the MLM program. Homework is due on Sundays by 11:59 pm. There will be a 20% deduction for problems submitted after the due date. Final submission for late homework will be Sunday, December 12 at 11:59 pm.

Graded Problem Sets
There will be 2 graded problem sets to turn in. You will work the problems on separate paper and upload them to Laulima. To receive full credit, you must show sufficient work neatly, with proper notation, and in an organized manner. Messy or disorganized work will not receive full credit.

- The end of semester student survey (CES) is worth 10 points of extra credit.
- Participating in the Discussion Board is 5 points of extra credit.

FOUNDATIONS QUANTITATIVE REASONING (FQ)

Math 241 fulfills 4 credits of the General Education requirements (Foundations: Quantitative) for both an A.A. degree at WCC and a Bachelor’s degree at 4-year UH institutions. Consequently, it meets the following hallmarks:

1. Provide students with theoretical justifications for, and limitations of, mathematical or statistical methods, and the formulas, tools, or approached used in the course.
2. Include application of abstract or theoretical ideas and information to the solution of practical quantitative reasoning problems arising in pure and applied research in specific disciplines, professional settings, and/or daily and civic life.
3. Provide opportunities for practice and feedback that are designed to help students evaluate and improve quantitative reasoning skills by including a course component at least once per week with a maximum 30:1 student-to-teacher ratio.
4. Be designed so that student will be able to
   a. identify and convert relevant quantitative information into various forms such as equations, graphs, diagrams, tables, and/or words.
   b. select appropriate techniques or formulas, and articulate and evaluate assumptions of the selected approaches.
   c. apply mathematical tools and perform calculations (including correct manipulation of formulas).
   d. make judgments, create logical arguments, and/or draw appropriate conclusions based on the quantitative analysis of data, the assumptions made, the limitations of the analysis, and/or the reasonableness of results.
   e. effectively communicate those results in a variety of formats.
