COURSE TASKS

A. PARTICIPATION / ATTENDANCE [320 pts; 32% of total grade]:

Each student will be expected to participate in lectures and activities each class, **via ZOOM**. It is **REQUIRED** that students have their **CAMERA ON** during ZOOM class. **MAKE SURE YOUR ZOOM ID/USER NAME IS YOUR REGISTERED NAME!** The instructor is not responsible for trying to figure out which student belongs to “808sk8r.”

To receive credit for participation, students need **to be present for the entire class** and **actively PARTICIPATE!**

Attendance logs in ZOOM will report each student present, how long each student attended, and if a student leaves and/or rejoins a class, and for how long. Attendance will be recorded using this tool; I will personally make participation notes. If a student has technical difficulties or loses connection, it is the student’s responsibility to rejoin the class. **The student’s camera must be on, with the student visibly participating in class, in order for the student to receive participation/attendance credit for that class.** Students must take measures to ensure their internet connection is strong enough to sustain a video feed. The instructor is not responsible for a student’s weak internet connection.

Lectures and activities are designed to complement information in the text. Optimal learning will require preparation outside of class and sharing the work product or information in class group discussion. It is important to **plan ahead** to make certain you complete the work required to be done outside of class so you are ready to share with the class at the time the topic is discussed. Because the activities are planned in-class group learning opportunities, there are no make-up opportunities for these activities.

Each student is viewed as a Learner/Peer Teacher. Your shared observations, knowledge, skills, questions, and responsive listening are valued and contribute to a positive learning environment. Consequently, it is important that every student attend and contribute to the interactive learning that is an important part of every class. Routine appointments should be made outside of class time.

B. Weekly Homework ASSIGNMENTS* [220 pts; 22% of total grade]:

For most chapters throughout the semester, assignment tasks are provided to enhance understanding and apply learning. Assignments can be found in the Master List of Assignments included in this syllabus; and may also be accessed via **LAULIMA: ASSIGNMENTS, TESTS, AND SURVEYS** and **LAULIMA/SYLLABUS**. **Note: **NOT ALL CHAPTERS HAVE ASSIGNMENTS.***

For each chapter assignment, you must complete a few brief questions or task in the **LAULIMA: ASSIGNMENTS, TESTS, AND SURVEYS** section of your Laulima site (worth 10 pts each). Assignments may include completion of tables, worksheets, watching videos, and/or answering critical thinking questions, etc. For many assignments, in order to answer the critical thinking question(s) and get credit, you must first watch a specified video in **LAULIMA/RESOURCES/ASSIGNMENTS AND VIDEOS**. *Some assignments **REQUIRE** hand-written creations*, such as creating tables. When hand-written, the work **MUST** be neat and legible or zero points will be given. Then you may upload a picture or scan of your hand-made creation in .jpg or .pdf format. Other formats may not be viewable and will result in zero (0) points.

You will first log in to **LAULIMA**, click on the “**ASSIGNMENTS, TESTS, AND SURVEYS**” link from your left side menu, and open the chapter due. The assignment description(s) will indicate the correct “assigned” Video(s) and/or Activity(s) you must complete. Upon completion of the activity, you will log back in to **LAULIMA’S ASSIGNMENTS, TESTS, AND SURVEYS** to answer the question(s) posed, and/or upload a picture or scan of your hand-made assignment. A master “List of Assignments” is also provided in **LAULIMA: ASSIGNMENTS, TESTS, AND SURVEYS**, **LAULIMA: RESOURCES**, and attached to this syllabus. *To get credit, assignment questions **MUST** be submitted in the **ASSIGNMENTS, TESTS, AND SURVEYS** section of **LAULIMA** by the due date.* Emailed assignments or assignments submitted in another area of the Laulima site will NOT be accepted.

ASSIGNMENTS ARE DUE BEFORE CLASS BEGINS! Late assignments will not be accepted. Additional details and feedback will be provided in **LAULIMA: ANNOUNCEMENTS** or in class.

EXTRA CREDIT

Some of the chapters have **EXTRA CREDIT** activities “assigned” in **LAULIMA: ASSIGNMENTS, TESTS, AND SURVEYS**. There are six (6) extra credit “assignments” scattered throughout the semester. Extra credit assignments are NOT required. If you wish to receive Extra Credit, these assignments must also be submitted directly through **LAULIMA’S ASSIGNMENTS, TESTS, AND SURVEYS** by the chapter due date. Extra credit assignments are worth a possible five (5) points each—half the points of regular assignments—for a possible 30 points total of extra credit. **THIS IS THE ONLY EXTRA CREDIT OFFERED FOR THIS COURSE!**

C. CHAPTER QUIZZES [160 pts; 16% of total grade]:

Quizzes will be made available within two weeks prior to the due date in **LAULIMA: ASSIGNMENTS, TESTS, AND SURVEYS**. Each week the student is expected to complete reading of the assigned chapter(s) and then complete the quiz(s) for the assigned chapter(s) before the stated deadline. Each individual chapter quiz will consist of 10 randomly chosen multiple choice and/or true/false questions. Students may take and retake chapter quizzes up to three (3) times to achieve a desired score; however, as questions are randomly chosen from a large database, the questions on each quiz retake will differ from the previous quiz questions for the same chapter. Only the highest score is recorded. Students are NOT permitted to use books or notes during the quizzes. These quizzes are timed.

Students may complete the reading and quizzes, in order, at a faster pace if they so desire; however, fairness in testing, in the interest of proficient grading, and to motivate students to ration work efficiently, quizzes and retakes must be completed BEFORE the stated deadline. Any quizzes posted past the deadline, without explicit permission from the instructor, will be manually rescored to "0;" Late quizzes will not be permitted.

Each chapter quiz is worth a possible total of 10 points, x15 chapters, plus an additional Syllabus Quiz week one; for a total possible 160 points. See attached schedule, online schedule, and individual quizzes for completion deadlines.

D. EXAMS [300 pts; 30% of total grade]:

Exams will be made available at least two weeks prior to the due date in **LAULIMA: ASSIGNMENTS, TESTS, AND SURVEYS**. Complete one (1) Midterm examination and one (1) Final examination covering assigned readings, class activities, discussions, lectures, videos, handouts, assignments, etc. Each Exam will consist of 150 Multiple Choice and/or True-False questions. Students may take and retake the Midterm and the Final Exams up to three (3) times to achieve a desired score; however, as questions are randomly chosen from a very large database, the questions on each exam retake will differ from the previous exam questions for the same exam. Only the highest score is recorded. Students are NOT permitted to use books or notes during the exams. These exams are timed.

Students may complete the exams before the due date if they so desire; however, fairness in testing, in the interest of proficient grading, and to motivate students to ration work efficiently, exams and retakes must be completed BEFORE the stated deadline. Any quizzes posted past the deadline, without explicit permission from the instructor, will be manually rescored to "0."

EXAM	DATES:	MATERIAL	%/ POINTS possible
Midterm	See Online Schedule	Chapters 1-7	15%/ 150pts
Final	See Online Schedule	Chapters 8-15	15%/ 150pts

Do not miss exams. Fairness in testing depends on students having equal preparation opportunities. Consequently, make-up tests will be allowed **ONLY** in the event of a genuine family or medical **EMERGENCY** with appropriate documentation. In the event of an emergency, the instructor must be notified **IN ADVANCE** of the exam, unless absolutely impossible. If the instructor is not notified of the emergency prior to the DEADLINE of the exam, and/or appropriate documentation of proof of emergency is not provided, the student will receive a zero for that exam. Routine appointments are not emergencies, and should be scheduled outside of time needed to complete course requirements. Illness and internet issues are not emergencies; start early to mediate these annoying life circumstances. In case of actual emergencies, it is the responsibility of the student to contact the instructor BEFORE the due date, in order for the student to avoid penalty. Late exams will not be permitted.

ADDITIONAL INFORMATION

MODES OF INSTRUCTION:

This is an ONLINE SYNCHRONOUS course. That means it is scheduled at a specific time to meet. Assigned readings, discussion, video activities, worksheets, and assignments, community field observations, peer teaching, online and interactive engagement, quizzes, and exams, are designed to be mutually complimentary. Although the main concepts in psychology will be covered, not all important information from your text will necessarily be discussed in class activities. The text and class activities are mutually complementary, meaning they overlap. Students are responsible for all information presented in all domains, and are encouraged to further research any concepts that are not fully understood.

ABSENCES:

As stated in “Course Tasks, A.,” attendance and participation are crucial to the interactive learning environment and routine appointments should be scheduled outside of class time. However, it is understood that occasionally an unforeseeable event might occur (illness, technical difficulties, children issues, etc.); therefore, as a courtesy, students are allowed to “make up” attendance/ participation for up to two (2) absences. You may make up an absence by taking comprehensive HAND-WRITTEN notes on assigned reading. Attendance make up notes should contain a summarized understanding of concepts, theories, and terminology throughout the assigned chapter reading for that day; simply copying terms and definitions will NOT be accepted. Basically, if I can see that you read and understood the material to be covered that day, I can pretend you were there. To receive absence make up credit, attendance make up notes must be submitted to your instructor, via email, within one week of your return. Any missed quizzes or exams will NOT be made up. There are certain days where scheduled activities are not conducive to make up work and cannot be made up. Doctor notes will NOT excuse an absence. Your instructor reserves the right to rescind this courtesy at any time.

REQUEST FOR Cr/N GRADES:

Requests for Credit/No Credit grades, as opposed to the traditional A-F grades, must be made by the official withdrawal date (see registrar for date) directly through the registrar’s office.

LATE WORK:

As stated in “Course Tasks, A - D,” late work will not be permitted or accepted. If you foresee you may be unable to complete coursework according to the schedule, you may submit assignments on an earlier date. Emailed assignments will not be accepted.

ACADEMIC INTEGRITY

Academic dishonesty cannot be condoned by the University. Such dishonesty includes cheating and plagiarism (examples of which are given below) which violate the Student Conduct Code and may result in receiving zero points for an assignment, failing an exam, failing the class, and ***expulsion from the University of Hawaii***.

Cheating: Cheating includes but is not limited to copying another student’s work, giving unauthorized help during an examination, obtaining unauthorized information about an examination before it is administered, using inappropriate sources of information during an examination, altering the record of any grades, altering answers after an examination has been submitted, falsifying any official UH record, and misrepresenting the facts in order to obtain exemptions from course requirements.

Plagiarism: Plagiarism includes but is not limited to submitting any document to satisfy an academic requirement that has been copied in whole or part from another individual’s work without identifying that individual; neglecting to identify as a quotation a documented idea that has not been assimilated into the student’s language and style, or paraphrasing a passage so closely that the reader is misled as to the source; submitting the same written or oral material in more than one course without obtaining authorization from the instructors involved...

All cases of academic dishonesty are referred to the Vice Chancellor for Student Affairs.

DISABILITIES ACCOMMODATIONS

If you have a physical, sensory, health, cognitive, or mental health disability that could limit your ability to fully participate in this class, you are encouraged to contact the Accessibility Counselor to discuss reasonable accommodations that will help you succeed in this class. Roy Inouye can be reached at (808) 235-7448, royinouye@hawaii.edu, or you may stop by Hale Kāko‘o 106 for more information.

You are encouraged to speak with your instructor to discuss any concerns regarding your educational progress and ensure you have an equal opportunity to succeed in this class. Anyone who has difficulty during the semester should see your instructor right away to get help.

(15.1) Critical Thinking Question – Therapeutic Conceptualization and Treatment Modality – 10 pts

Refer to information provided in your text.

Briefly answer the following:

 - b. Provide an example of a behavior and how you would conceptualize it.
