

General Chemistry Laboratory I

CHEM161L, CRN: 63407

Fall 2022

CLASS INFORMATION

Asynchronous online

Meeting Location: Zoom meeting info will be provided as needed

INSTRUCTOR INFORMATION

Instructor: Martine Bissonnette

Office Hours: Virtual office, availability to be announced weekly; appointments available via Zoom

E-mail: martineb@hawaii.edu

WINDWARD COMMUNITY COLLEGE MISSION STATEMENT

Windward Community College offers innovative programs in the arts and sciences and opportunities to gain knowledge and understanding of Hawai'i and its unique heritage. With a special commitment to support the access and educational needs of Native Hawaiians, we provide the Ko'olau region of O'ahu and beyond with liberal arts, career and lifelong learning in a supportive and challenging environment — inspiring students to excellence.

SYLLABUS CHANGE POLICY:

Information contained in the course syllabus may be subject to change with reasonable advance notice, as deemed appropriate by the instructor. Updates to the syllabus will be communicated via email.

About This Course

Laboratory experiments illustrating fundamental principles of chemistry. (3-4 hours estimated time to complete each lab).

Pre-Requisite(s): Credit for or registration in CHEM 161.

Course Learning Outcomes

After successfully completing this course, you will be able to:

1. Apply laboratory safety procedures and respond to hazards.
2. Use molecular and crystal models, perform common laboratory techniques competently and computer-based experiments to verify chemistry laws on stoichiometry, thermochemistry, behavior of gases and liquids.
3. Apply and articulate the scientific method by preparing lab reports using the standard scientific format. Express in writing core chemistry principles, results of experiments and do critical thinking by synthesizing conclusions based on observations and data.
4. Make and record precise measurements, calculate results using significant figures, standard deviations and identify sources of error in laboratory experiments.
5. Use computer competently, word-processing, spreadsheet, and graphing.
6. Prepare chemical solutions, perform dilutions, calculate solution concentrations, and generate a calibration curve.

Course Format

We will be using the Labflow platform which provides a way to view experimental techniques, make observations, and perform the calculations associated with lab experiments. There are no supplies to purchase but there is a \$30 fee to access the platform.

For each lab, students will have to review the material, complete a pre-lab quiz, and complete a report. Students should allocate 3-4 hours a week to complete all the tasks. Information and task lists will be posted on Lualima while pre-lab, data, reports will be on Labflow. You will have to submit two formal reports during the semester which will be in addition to the Labflow work and submitted on Lualima – more details to be provided during announcements.

All tasks are due at 11:59 pm on Sunday evenings except for the last week of class which has a due date of Friday (see tentative schedule at the end of this syllabus) and include the following:

- Login to Labflow to view the background videos
- View required Lualima videos
- Answer pre-lab quiz questions
- Submit lab report

Required Materials

Students must have the following:

- Computer or tablet with high-speed internet connection
- Access to Lualima website and Zoom as needed
- Access to Labflow platform (semester cost \$30): www.labflow.com, enrollment code 63407
- Chem 161 class notes and OpenStax Textbook: Chemistry (Free, <https://openstax.org/details/books/chemistry-2e>)
- Scientific calculator that has Log and natural log (ln) functions.
- Electronic device to take photos of written work and ability to upload image to website
- Ilovepdf or other application to combine images into a single pdf file for each upload

Course Policies

Communication

Your instructor will send a weekly email to provide specific instructions about the week's experiments.

Students can communicate with the instructor via Lualima e-mail, or university e-mail. Messages will be answered within 24 hours during the week or within 48 hours on weekends and holidays.

Alternative Contact

If you are unable to contact the instructor, have questions that your instructor cannot answer, or for any other issues, please contact the Academic Affairs Office:

Location: Alakai 121
Phone: 808-235-7422
Email: wcaa@hawaii.edu

Attendance & Grading

Attendance/Participation

Students are expected to complete the work associated with each week's experiments within the allocated time frame. A checklist for each week's task is posted on Laulima.

Late Work

A penalty of up to 30% will be applied to late reports. No work will be accepted later than one week after the due date unless there are specific circumstances and you have notified the instructor **prior** to the initial due date. Work can be submitted until 11:59 pm on the due date.

Pre-lab Assignments

Each experiment (except the first one) will have an associated pre-lab assignment posted on Labflow. Allow 1-2 hours to watch the videos and complete the pre-lab.

Reports

Each lab includes worksheet reports that will be used to record simulation data and observations during the experiment. You should allocate 6-8 hours to complete both the experiment and the post-lab questions. Formal reports may take longer. All work must be completed by the due date and time.

Formal lab reports.

One of the experiments will require two formal reports which have to be submitted either in Word, Google doc, or pdf format. More information will be provided the weekend prior to the formal report being due; you will be provided with a template and sample of a formal report.

Just like the worksheets, formal lab reports must be turned in by the due date/time.

Lab Safety

At-home lab: all experiments will be performed virtually and will not involve any chemicals.

Data

You will be working solo for these experiments and every person must present their own data.

When recording data, pay attention to significant figures and to the precision/units of the instrument used (for example, your balance should weigh to two decimal places, so you would record a reading at 10.45 grams).

Exams

There will one mid-term and one final exam administered via Labflow. The exams will be open book.

Weekly Experiments - Recipe for Success

- Prepare before each lab session so you're ready to ask questions if needed – read the experiment, complete the pre-lab assignment, contact your instructor.
- Check the Laulima homepage **weekly** for announcements and update/important information.
- Check your email a couple of times per week.
- Submit your work on time.

Special learning needs

If you have special learning needs, inform your instructor at the beginning of the semester.

Evaluation and Feedback

The instructor will attempt to grade work and provide feedback within one week.

Grade Composition

The Final Grade will be based upon a possible total of 525 points. The 2 lowest pre-lab quizzes will be dropped. Students can check their grades and examination scores on Laulima Gradebook at any time.

1. 11 Experiments Worksheets (25 points each) – 275 points
2. 2 Formal Lab Report (50 points) – 100 points
3. 12 Pre-lab Quiz (5 points each- 2 lowest will be dropped) – 50 points
4. Mid-term exam – 50 points
5. Final Exam– 50 points

Final Grade

Grades of I, W, CR, CN are described in the current college catalog. Students who no longer attend class and who DO NOT OFFICIALLY WITHDRAW from the course will receive “F” grades.

Students must present the "Request for Incomplete" form to their instructor prior to the last day of instruction. "I" grades will be given only to students who are achieving passing grades and are very close to completing the course. Only serious reasons will be accepted (listed under the withdrawal policy).

Grades will be rounded to the nearest whole number and you will receive a letter grade based on the following scale:

Letter Grades and Percentage Ranges

A = 90-100% B = 80-89% C = 70-79% D = 60-69% F = 0-59%

Institutional Information

Please review the following institutional policies:

Student Responsibilities

- Students should allocate 3-4 hours per week to complete each experiment and work on assignment/report.
- UH Policy on Email Communication
The electronic communications policy adopted in December 2005 establishes the University of Hawai'i Internet service as an official medium for communication among students, faculty, and staff. Every member of the system has a hawaii.edu address, and the associated username and password provide access to essential Web announcements and email. You are hereby informed of the need to regularly log in to UH email and Web services for announcements and personal mail. Failing to do so will mean missing critical information from academic and program advisors, instructors, registration and business office staff, classmates, student organizations, and others.
- Academic Honesty
In cases of suspected or admitted academic dishonesty, the instructor involved shall attempt to discuss the matter with the student. The instructor may bring the matter to the attention of the departmental chairperson for consultation. The instructor may require the student to redo the assignment, give a failing or reduced grade for the course, and/or refer the student to the Vice Chancellor for Student Affairs or designee through the Department Chair for possible college action under the Student Conduct Code. The Vice Chancellor for Student Affairs or designee shall pursue such cases to determine appropriate disciplinary actions if, after a preliminary investigation, it is his/her determination that probable cause exists to establish that an act of academic dishonesty took place.

College Policies

- Disabilities Accommodations

If you have a physical, sensory, health, cognitive, or mental health disability that could limit your ability to fully participate in this class, you are encouraged to contact the Disability Specialist Counselor to discuss reasonable accommodations that will help you succeed in this class. Roy Inouye can be reached at (808) 235-7448, royinouy@hawaii.edu, or you may stop by Hale Kāko‘o 106 for more information. You shall also inform your instructor at the beginning of the semester; that information will remain confidential.

- Sex Discrimination and Gender-Based Violence Resources (Title IX)

Windward Community College is committed to providing a learning, working, and living environment that promotes personal integrity, civility, and mutual respect and is free of all forms of sex discrimination and gender-based violence, including sexual assault, sexual harassment, gender-based harassment, domestic violence, dating violence, and stalking. If you or someone you know is experiencing any of these, WCC has staff and resources to support and assist you. To report an incident of sex discrimination or gender-based violence, as well as receive information and support, please contact one of the following:

Karen Cho
Deputy Title IX Coordinator
808-235-7404
kcho@hawaii.edu

Desrae Kahale ***Confidential Resource***
808-235-7393
dkahale3@hawaii.edu

Jojo Miller, ***Confidential Campus Advocate***
808-348-0663
jojo.miller@hawaii.edu

Leslie Cabingabang ***Senior Confidential Advocate***
808-348-0432
leslie.cabingabang@hawaii.edu

To file a report online: <https://report.system.hawaii.edu/student>

As a member of the University faculty, I am required to immediately report any incident of sex discrimination or gender-based violence to the campus Title IX Coordinator. Although the Title IX Coordinator and I cannot guarantee confidentiality, you will still have options about how your case will be handled. My goal is to make sure you are aware of the range of options available to you and have access to the resources and support you need.

For more information regarding sex discrimination and gender-based violence, the University’s Title IX resources and the University’s Policy, Interim EP 1.204, go to manoa.hawaii.edu/titleix/

- Covid-19 policies: <https://windward.hawaii.edu/campus-life/safety-security/campus-emergency-preparedness-and-evacuation-procedures/coronavirus/>

How to Get Help <https://windward.hawaii.edu/services-for-students/>

- Academic Support
- Student Support Services
 - Academic Advising
 - Financial Aid
 - Personal Counseling
- Technical Support Services

Tentative Course Schedule

The following schedule is subject to change. Should changes occur, you will be notified by email. All due dates are on Sunday evening.

Week	Date	Event	Topic/Event
1	22 Aug	Lab 1	Laboratory Safety and Math Review
2	29-Aug	Lab 2	Basic Laboratory Techniques/Intro to Laboratory Measurements
3	5-Sep	Lab 3	Separating a Mixture of Solids
4	12-Sep	Lab 4	Solutions, Electrolytes, and Concentrations
5	19-Sep	Lab 5	Types of Chemical Reactions
6	26-Sep	Lab 6	Limiting Reactants
7	3-Oct	Lab 7	Empirical Formula
8	10-Oct	Exam	Covers Labs 1 to 6
9	17-Oct	Lab 8	Beer's Law and Spectrophotometry
10	24-Oct	Lab 9	Titration: Determining the Concentration of an Acid
11	31-Oct	Lab 10	Using the Ideal Gas Law
12	7-Nov	Lab 11	Constant Pressure Calorimetry
13	14-Nov	Lab 12	Identification of a Halide
14	21-Nov	-	Thanksgiving week – NO LAB
15	28-Nov	Lab 13	Modeling Geometry and Polarity
16	5 Dec	Exam	Covers Labs 7 to 13

**** Experiments in bold require a formal lab report**
