Do not miss exams. Fairness in testing depends on students having equal preparation opportunities. Consequently, make-up tests will be allowed ONLY in the event of a genuine family or medical EMERGENCY with appropriate documentation. In the event of an emergency, the instructor must be notified IN ADVANCE of the exam, unless absolutely impossible. If the instructor is not notified of the emergency prior to the start time of the exam, and/or appropriate documentation of proof of emergency is not provided, the student will receive a zero for that exam.

Routine appointments are not emergencies, and should be scheduled outside of class hours. In case of emergencies, it is the responsibility of the student to contact the instructor before class begins, in order for the student to avoid penalty.

B. PARTICIPATION / ATTENDANCE : (10%, 100 points of total grade):
Each student will be expected to participate in lectures and activities each class. Activities are designed to complement information in the text. Optimal learning will require preparation outside of class and sharing the work product or information in class group discussion. It is important to plan ahead to make certain you complete the work required to be done outside of class so you are ready to share with the class at the time the topic is discussed. Because the activities are planned in-class group learning opportunities, there are no make-up opportunities for these activities.

Each student is viewed as a Learner/Peer Teacher. Your shared observations, knowledge, skills, questions, and responsive listening are valued and contribute to a positive learning environment. Consequently, it is important that every student attend and contribute to the interactive learning that is an important part of every class. Routine appointments should be made outside of class time.

To receive credit for participation, each student will need to be present for the entirety of the class and actively participate. An attendance sign-in sheet will be circulated during each class. It is the student’s responsibility to ensure s/he signs in every class period. Neglecting to sign in will result in “0” participation/attendance points for that class period.

C. INSTRUCTOR QUIZZES (10%, 100 points of total grade):
Quizzes will be administered on a variable interval schedule of reinforcement. Quiz content will most often include material covered in required preparatory reading for the current class, and occasionally instruction/reading from previous classes. Quizzes will be administered at the moment class begins and will take approximately five minutes or less to complete. If the student is not present at the time of the quiz, s/he will receive zero points. There are NO MAKE-UPS for quizzes. Quizzes are motivation for preparatory reading, studying, and on-time attendance in class; therefore, students must be present to participate in the quiz.

D. “What I Have Learned” TERM PAPER (10%, 100 pts of total grade):
This project should be taken seriously! This activity is to aid the student in developing a comprehensive understanding of developmental theory through meaningful thought and real-life application, while completing a college level literary project. Your work quality and professional presentation is expected to be at college level performance. To be successful in this segment of the course, students need to start early and work each week to complete this project. See rubric for additional instructions on project requirements.

Because this is a semester long project, there is no excuse for a late paper. LATE PAPERS will not be accepted. Service Learning experience may be substituted for chapter materials; ask instructor about Service Learning opportunities.
E. HOMEWORK ASSIGNMENTS (10%, 100 pts of total grade):
For various chapters throughout the semester, assignment tasks are provided to enhance understanding and apply learning. Assignments may include completion of charts, worksheets, watching videos, answering critical thinking questions, etc. Assignments can be found in the list of Homework Assignments included in this syllabus and may also be accessed via Laulima/Syllabus.

Assignments are due at the BEGINNING OF CLASS on the date due. Due dates are listed on the course schedule, included in this syllabus. For many assignments, in order to answer the question(s) and get credit, you must first read the assigned chapter in your text and watch a specified video in Laulima/Resources/Homework_and_Videos. Unless otherwise specified, homework assignments are worth 10 points each.

For most assignments, you may type or hand-write your assignments; although some assignments REQUIRE hand-written creations (no computer models). When hand-written, the work MUST be neat and legible or zero points will be given. Make sure your name is on each page, and turn the hardcopy in to me at the BEGINNING OF CLASS on the day that assignment is due. Late assignments will not be accepted. If you foresee you may be unable to come to class, you may submit assignments on an earlier date, turn it in to me before class start time, or have a classmate hand it in for you. Emailed assignments will not be accepted.

To receive full credit for this aspect of the course, you must complete at least 10 of the 25 assignment opportunities offered to you in your list of Homework Assignments. You are only required to complete ten of the assignments offered. The additional fifteen assigned activities are extra credit opportunities; these are the ONLY extra credit offered for this course. Extra credit maxes out at 40 points; no more than 40 points of extra credit may be earned.

To enhance learning, students are encouraged to complete any and all activities available; however, course credit can only be given for a maximum of 100 total homework points and a maximum of 40 total extra credit points. Students understand that any additional activities are completed merely for the learning opportunities they provide.

F. CHAPTER PRESENTATION PROJECT (20%, 200 pts of total grade):
You and a teammate will be assigned a chapter to present to the class. Team selections will be made on Day 2 of class. The chapter presentation should be approximately 45 minutes in length, be accompanied by handouts of presented chapter material, and be completely presented through active participation of entire class. Additional instructions will be provided in class. Grade is based on Instructor Rubric; and takes into account information presented in a Teammate/Partner Rubric, but only as deemed appropriate by instructor.

ADDITINOAL INFORMATION

MODES OF INSTRUCTION:
Lectures, assigned readings, videos, worksheets, discussions, collaborative work-groups, student chapter presentations, participation, group projects, community field observations, role-playing, peer teaching, online and interactive engagement. Although the main concepts in human development throughout the lifespan will be covered, not all important information from your text will be discussed in class. The text, course activities, and online resources are mutually complementary. Students are responsible all domains of information presented.

CELL PHONE POLICY:
Cell phones should be silenced and put away before entering the classroom. Cell phone use is not permitted during class lectures as their use is distracting to your instructor and other students. If you wish to call, text, view social media, etc., the classroom is not an appropriate place to do so. If you wish to document any information that is written on the board, you should take notes; taking pictures are not conducive to learning. If you are expecting an important call or anticipate a possible emergency call or text, please place your phone on vibrate mode and quietly exit the classroom before addressing it. Your cooperation in limiting cell phone distractions in class is appreciated. If you utilize your cell phone at any time during a quiz or exam, your assessment will be immediately confiscated and scored a “0.”

ABSENCES:
As stated in “Course Tasks, B.,” attendance and participation are crucial to the interactive learning environment and routine appointments should be scheduled outside of class time. However, it is understood that occasionally an unforeseeable event might occur (illness, transportation trouble, children issues, etc.); therefore, as a courtesy, students are allowed to “make up” attendance/ participation for up to two (2) absences. You may make up an absence by taking comprehensive HAND-WRITTEN notes on assigned reading. Attendance make up notes should contain a summarized understanding of concepts, theories, and terminology throughout the assigned chapter reading for that day; simply copying terms and definitions will NOT be accepted. Basically, if I can see that you read an understood the material to be covered that day, I can pretend you were there. To receive absence make up credit, attendance make up notes must be submitted to your instructor within one week of your return. Any missed quizzes or exams will NOT be made up. There are certain days where scheduled activities are not conducive to make up work and cannot be made up. Doctor notes will NOT excuse an absence. Your instructor reserves the right to rescind this courtesy at any time.

LATE WORK:
As stated in “Course Tasks, D and E,” late assignments are not be accepted. If you foresee you may be unable to come to class, you may submit assignments on an earlier date, turn it in to me before class start time, or have a classmate hand it in for you. Emailed assignments will not be accepted. With that said, under special circumstances and with prior approval from your instructor, late work may occasionally be accepted with a strict 50% point penalty. Your instructor reserves the right to rescind this exception at any time.

REQUEST FOR Cr/N GRADES:
Requests for Credit/No Credit grades, as opposed to the traditional A-F grades, must be made by the official withdrawal date (approximately mid-semester; see calendar for date) directly through the registrar’s office.

DISABILITIES ACCOMMODATIONS
If you have a physical, sensory, health, cognitive, or mental health disability that could limit your ability to fully participate in this class, you are encouraged to contact the Accessibility Counselor to discuss reasonable accommodations that will help you succeed in this class.
