COURSE TASKS

Please note, this class is using a “Flipped Classroom Design” which means students watch prerecorded lectures outside of class, and complete “homework-like” assignments in class with the assistance of the instructor.

Homework Lecture Videos
Students can view the lecture videos for each section by clicking on the links provided on the Laulima course overview page. Students need to complete provided lecture notes while watching the videos. Questions about the lecture video/notes will be answered the next following class day.

Section Reading
Students need to read the sections in the etext or textbook for each week after viewing the lecture videos.

In-Class/Group Work
After watching the lecture videos, and completing the provided lecture notes outside of class, we will complete in-class/group work assignments. These class assignments are due at the end of their respective week by Fridays. The building closes at 5:00pm, which is the latest the assignments can be put in my office door drop box.

Weekly Quizzes
There will be weekly quizzes due via MLM Pearson each week on Fridays at 11:59pm. Students have only one attempt per quiz. There are no makeup or retest opportunities. Email the instructor at least 48 hours ahead of time if you are unable to complete a quiz.

Optional Quiz Corrections
Full handwritten quiz corrections will be accepted for one week after the quiz due date. Corrections can only be done if a student completed the quiz on time. A complete solution can earn back up 50% of points.

Final Exam
The final exam will be given in class, it is 2 hours long. There are no make-up or retest opportunities for the final exam. Email the instructor at least 48 hours ahead of time if you are unable to attend the exam, another time to take the final may be provided. In the event of a valid emergency keeping the student from completing their final, students must provide documentation.

Expected Weekly Study Time
It is expected that students spend, at the minimum, 12 hours per week outside of class time studying, attending the Math Lab and/or TRiO for extra help, watching the lecture videos, completing the lecture notes and readings for this class.
