

UNIVERSITY of HAWAII\*  
**WINDWARD**  
COMMUNITY COLLEGE

**ICS 281 (CRN 63492)**  
**Ethical Hacking (3 credits)**  
**Fall 2022 (22 August 2022 ~ 16 December 2022)**

---

## WINDWARD COMMUNITY COLLEGE MISSION STATEMENT

*Windward Community College offers innovative programs in the arts and sciences and opportunities to gain knowledge and understanding of Hawai'i and its unique heritage. With a special commitment to support the access and educational needs of Native Hawaiians, we provide O'ahu's Ko'olau region and beyond with liberal arts, career and lifelong learning in a supportive and challenging environment — inspiring students to excellence.*

### Class Details

**INSTRUCTOR:** John Oshiro / Laura Sue  
**OFFICE:** Hale Palanakila 119/119A      **OFFICE HOURS:** TBA  
**TELEPHONE:** 808-542-6541 /236.9253      **EMAIL:** [oshiroje@hawaii.edu](mailto:oshiroje@hawaii.edu)  
[laurasue@hawaii.edu](mailto:laurasue@hawaii.edu)

**Office Hours:** I will release office hours during the first week of class via the Lulima site. If you need to meet with me outside of the scheduled hours, let me know via email and we can schedule other meeting times. You can reach me during the day at 236-9290 OR 542-6541, please leave a message if I do not answer. You can also reach me via e-mail (given above). **On all correspondence, please add the phrase "ICS 281" to the subject line.** I endeavor to answer all emails within 24 hours during the regular work week.

**Key Dates:** **Last Day to withdraw without a "W":** 13 September 2022  
**Last Day to Withdraw with a "W":** 31 October 2022  
**Last Day of Instruction:** 8 December 2022  
**Finals Week:** 10 ~ 16 December 2022

### ICS 281 Course Details

Welcome to ICS 281 – Ethical Hacking. In this course we will be exploring some of the tools, techniques, and principles of the technical side of computer offense, and use findings and outcomes to drive tools, techniques, policies, and procedures for computer defense. This class will examine information security topics and related issues across many disciplines/domains including: scanning & evasion, system attack, wireless hacking, security in the cloud, Trojans, cryptography and cryptographic attacks, social engineering, and overall penetration testing. The main goal in this course is to expose students to the techniques and ethical issues of using offensive cyber techniques to improve overall defensive cyber posture.

**Course Description:** This course covers basic ethical hacking techniques also known as white hat hacking. It stresses the moral and legal issues about hacking and how these techniques can be used to defend against attacks as well as to perform authorized system security evaluation testing (3 hours lecture). Pre-Requisite(s): ICS 171 with a C or better, or consent of the instructor.

**Student Learning Outcomes:** Student learning outcomes for this course are:

- Demonstrate how to apply current cyber-attack, countermeasures and best practices using current cyber defense tools, methods and components
- Implement a defense incident response and recovery strategies
- Evaluate the moral and legal obligations of an ethical hacker
- Apply the knowledge gained in hardening systems to prevent or minimize attacks

### ASSESSMENT TASKS, GRADING, AND SUBMISSION POLICIES

**Course Outline:** Course grading breaks down as follows: (*No plus or minus grades given, no "rounding"*)

Final	35 %	90% - 100 %	"A"
Labs (2x)	20 %	80% - 89%	"B"
Project	15 %	70% - 79%	"C"
Quizzes (5x)	20 %	60% - 69%	"D"
Class Participation	10%	59% & below	"F"

**Exams format:** The final (which is cumulative) will include short answer and true/false type questions. The questions will be based on material presented/covered online. This can include questions that require math calculations and possible drawings. It will be administered via Lulima. You must pass the final to pass the course. *\*No more than 15% of the class will receive an "A".*

**Projects/Labs:** There are 2 labs and 1 project that will be released during this class – they will be placed on Lulima site and will be in the schedule. These projects will be based on material covered in class.

**Returns:** The instructor endeavors to return all graded assignments to the students within two weeks of receipt (most times its less than 1). Exams may take up to 2 weeks to grade and return.

**Late Policy:** If a student will miss a deadline or due date due to work, deployment, medical or personal problems, etc., they **MUST** notify the instructor ahead of time. All missed deliverables will be given a grade of zero, unless prior arrangements are made with the instructor. This should NOT be a common occurrence.

**Incompletes:** No *Incompletes* or *N* grades will be given except in the most extreme of emergencies (at the Instructor's discretion – e.g.: death in the family).

**Access:** You should be logging into Lulima at least once a week and completing the required weekly assignments. It is possible to get ahead, but you should still endeavor to log in at least weekly. Students bordering on in-between grades will be given the higher grade if in the opinion of the instructor have been showing a regular presence on the Lulima system.

## COURSE PLAN

**Schedule** A schedule of assignments and due dates will be posted during the first week of class on the Lulima site.

**Handouts:** There may be various handouts given to students during the semester. These items will be emailed and posted to Lulima. These handouts cover material that could be covered on an exam.

## LEARNING RESOURCES

**Lulima:** Lulima is an online course management system and will be used extensively in this course. The class schedule, assignments, and announcements will be posted and administered through Lulima. (<https://lulima.hawaii.edu/portal>). The class *Announcements* will also include the *Due Dates* for any course work that may be due at the end of each week. It is CRUCIAL to check your *email*, the *Course Schedule*, and the *Announcements* page regularly to make sure you are keeping up with the requirements and pace of the course

**Required software and System.** No special software is required for this course beyond MS office (or equivalent) 2013 or higher. This class will include submission of papers and other assignments requiring use of a word processor, possibly spreadsheet software (e.g. Excel), and regular, internet access to browser websites for research. You can download free versions of Office 365 (available to WCC students) through special programs with Microsoft – contact the instructor or the WCC bookstore if you wish to avail yourself of this. Windward Community College also provides computers for your use in the library, lab, and in specific areas in Hale Pālanakila.

## Instructor Expectations and Principles:

- 1) It is your personal responsibility as an online student to ensure that you have an access to a reliable computer with the Internet connection.
- 2) It is the burden of the student to demonstrate mastery of course material to the instructor.
- 3) If you are having problems – ask! Don't let confusion grow. I will assist you as needed, but you still must get the correct solution before you get credit – I will not do your thinking for you.
- 4) You can work with others, BUT, ensure you must submit your own work - do not “work together” on a solution then make copies for each person to turn in. If you “work together” to gain understanding, ensure you separate before you prepare your submission – if the submissions look too similar you may be asked to prove that it is your work.
- 5) Don't let other students copy – it is your responsibility to ensure that your work is not made available to others. Academic dishonesty “F”s often times comes in pairs.
- 6) Any activity that diminishes the instructor's ability to analyze and rate a student's individual knowledge of course material is prohibited.
- 7) Complete assignments on time. Assignments should be professional and meet the highest standards with regards to: logic, research, and content, grammar, and spelling.
- 8) Be prepared for tests and exams. This can be accomplished by working all assignments and reading ahead.
- 9) Think before putting pen to paper (or fingers to keyboard). Analysis is key; thinking and understanding prior to attempting to solve a problem is critical.
- 10) Time goes by very quickly and there is a lot of work to be accomplished. You will likely be putting in anywhere from 10-12 hours a week doing assignments, reading, or doing research. Unexpected things happen often in life – do your best to get ahead so you can more easily deal with these events. Good time management and study discipline will be critical for keeping up in the class and doing well.
- 11) Communicate early and often with the instructor – and discussions of material (not exams) with other students is highly encouraged.
- 12) If you have problems or issues (e.g. illness, housing, death in the family, etc.) during the semester, let me know as soon as possible; we can work together to get your through this class. But I can't help you if I don't know about it.

## Conduct and Academic Dishonesty Policies

**Online Conduct:** Everything done electronically on the university systems or via email can be considered public record and you are part of the larger, global, online community. As such, it is expected that all students demonstrate appropriate language, behavior, respect, and understanding that would prevail in any campus situation. All students should do their part to ensure a pleasant and safe online environment for others – including:

- a) Watching for virii, worms, bots, etc. Do not allow these items, or any other type of code that disrupts or interrupts/interferes with other users' use of the online environment.
- b) Showing respect for all faculty, students, staff regardless of age, race, gender, religion, national origin, veteran's status, disabilities, sexual orientation, etc.
- c) Being honest. Misrepresentation of any kind will not be tolerated. This includes any type of identity theft or intentional electronic "fakery" (spoofing, relaying, etc.)
- d) Being polite. Ensure that any content submitted electronically is free from harmful, threatening, libelous, and abusive content. This also includes profanity.

**Submissions** The Internet is a great research tool and it should be utilized as often as possible as a study aid; but please ensure that you **DO YOUR OWN WORK**. Turning in material that is plagiarized is a serious offense. Study and use the information found on the internet (and any other sources) to help you understand, but when it comes time to do your work – use your own words, and do not copy, cite, or attempt to "paraphrase" or "rephrase" someone else's work. If you truly understand the material, you will be able to use your own words and examples. Also, consider your source when reading information on the Internet – not everything out there would be considered a "reputable" source. Be aware that all submitted items can be run through academic tools which scan for and can catch, plagiarism attempts.

**Academic Dishonesty:** The penalties for academic dishonesty are explicitly noted in the Windward Community College student conduct code. Students are expected to maintain the highest moral and ethical standards. Any student, who cheats, lends assistance to others or hands in work that is not his/her own, will be penalized as outlined in the student conduct code. Furthermore, each student is responsible for ensuring that their work is not made available to others for study or duplication. Ignorance of this policy is no excuse of any academic dishonesty. Ensure your work is your own. Copyright infringement or violation of patent, trademark, proprietary information, and/or confidentiality agreements will not be tolerated. Consequences include (but are not limited to)

- 1<sup>st</sup> offense – a "0" for the assignment for all involved and a written warning
- 2<sup>nd</sup> offence – an "F" for the class

*\*The instructor reserves the right to notify the administrative offices of any academic dishonesty violations – this can incur separate consequences such as probation or worse.*

## DISABILITIES ACCOMMODATION STATEMENT

*If you have a physical, sensory, health, cognitive, or mental health disability that could limit your ability to fully participate in this class, you are encouraged to contact the Disability Specialist Counselor to discuss reasonable accommodations that will help you succeed in this class. Ann Lemke can be reached at 235-7448, [lemke@hawaii.edu](mailto:lemke@hawaii.edu), or you may stop by Hale 'Akoakoa 213 for more information.*
