Windward Community College offers innovative programs in the arts and sciences and opportunities to gain knowledge and understanding of Hawai‘i and its unique heritage. With a special commitment to support the access and educational needs of Native Hawaiians, we provide the Ko‘olau region of O‘ahu and beyond with liberal arts, career and lifelong learning in a supportive and challenging environment — inspiring students to excellence.

‘Āina

Windward Community College is located in the ahupua‘a of Kāne‘ohe and He‘e‘ia in the moku of Ko‘olaupoko on the island of O‘ahu. Both ahupua‘a are directly connected to the mo‘o ‘ōlelo of Pāpa and Wākea, who are seen as the ancestors of the Hawaiian nation. The campus sits beneath the pu‘u of Keahiakahoe, which is also connected to many mo‘o ‘ōlelo of this ‘āina. Because wind names and rain names are associated with specific ‘āina, the rain name of Kāne‘ohe is known as the ‘Āpuakea and the rain name of He‘e‘ia is the Ulumano.

Contingency Plan

If there is an outage, weather situation, or family emergency on my end, I will do my best to find a way to communicate an update as soon as possible about my return to the course. Mahalo in advance for your understanding and I hope you will do the same.

Course Format & Structure

This course is offered in a 16-week time frame. Please note that this is not a self-paced course; our course schedule is provided in this syllabus.

All course activity due dates are listed in Lamakū on the Calendar. Please check your UH email often and set your [Lamakū Notifications](#) (both email and D2L Brightspace [Pulse App](#)) to receive course notices, such as grading updates, announcements, and activity reminders.

Regular Substantive Interaction (RSI)

Online courses at Windward Community College follow the college's [RSI Definition](#) for ensuring quality instruction. You can expect me to communicate with you frequently (and in a timely fashion) about our coursework in the following ways during our 16-week course:

- *Announcements*: Every Sunday evening
- *Q&A*: A Q&A submodule is located on Lamaku and will be checked for open questions every 48 hours.
- *Student Check-Ins*: Mid-semester surveys will be sent out during the first week of February and April to check in on your status within the course.

Participation Verification

Campuses are required by federal regulations to verify the participation of students in their classes. In accordance with [Executive Policy 7.209](#), all students in the University of Hawai'i system are required to establish "participation" to ensure that they are not dropped from their class(es). Effective Fall 2021, students who fail to participate by the late registration period for a class will be administratively dropped from that class. Students may also be dropped from dependent prerequisite and/or corequisite classes if both courses do not establish participation.

Course Information

Catalog Description

This course covers the nature and use of x-ray technology in veterinary technology. Students are also given an overview of alternative imaging techniques (ultrasound, CT scans, and digital radiography) as well as an introduction to the radiography of large animals and exotics. (3 hours lecture).

Student Learning Outcomes

Upon successful completion of ANSC 252, the student will know how to:

1. Describe the uses and functioning of various types of medical imaging equipment.

Learn about the Hawaiian meaning of the word “lamakū”: [Lamakū Pronunciation, Meaning, and Importance](#).

- [UHCC Lamakū Student Resources](#) (how-to videos)
 - Contact [UH ITS](#) for 24/7 Lamakū assistance.
- [Keeping Accessibility and UDL in Mind](#)
 - If you find any course content that needs remediation and/or updating, please kindly share and I will immediately work to make the content accessible.
- Lamakū courses will appear 5 days before the first day for the academic term and will become inactive (no longer be available to access) 3 weeks after the end of the term. Be sure to save any coursework you may need from Lamakū *during* the term.

- Lamakū automatically logs you out *if it does not detect activity for three hours*. A warning message will appear, notifying you of the lack of activity. Activity is defined as clicking a button in Lamakū, such as "Save Draft" or "Next" (in a test), clicking on a course tab, or taking an action that sends information to the server.

Other Technology

D2L Brightspace, the parent company of Lamakū, recommends users choose the latest versions of [Google Chrome](#), [Mozilla Firefox](#), [Microsoft Edge](#), or [Apple Safari](#) as their internet browser.

We recommend that students update their internet browser at the start of each term, search how to allow pop-up windows, adjust their cookies, and clear device history. Also, fully restart your computer and/or device from time-to-time to optimize performance.

Review the privacy/security policies before using the technologies we will be using in this class. Contact me if you would like to discuss the use of alternate options or technologies.

- [Google Drive](#) is used in this course to organize files and make them accessible. Your UH email must be used to access all files; all requests from non-UH emails will be ignored.
- [Google Docs](#) is used for some files required for assignments like templates, rubrics, etc. Although you do not necessarily need to edit any Google Doc files, you may be using this extensively on your own to create your case study projects or edit an existing template. Accessibility rules are the same as Google Drive in general.
- [Kahoot!](#) is an online quiz program which will contain several practice quizzes and exams for the semester. You do not need an account to play any Kahoot games. ([accessibility statement](#), [privacy policy](#))

Grading Policy

1. **Late Submissions** - If you miss an assignment due to a **serious illness or legitimate emergency**, you **must** contact the instructor within **24 hours** to discuss making up assignments. You may need to provide documentation for evidence of emergency or illness.
2. **Spelling** – Due to the importance of spelling in a medical setting, any spelling error may be marked as incorrect. This is especially true for critical terminologies.
3. **Wrong file submission policy** – *It is the student's responsibility to ensure that the correct file was uploaded. Submissions of wrong files will be categorized as a late assignment.*
4. **Corrupted file submission policy** – *It is the student's responsibility to ensure that a working file was uploaded. Submissions of corrupted files will be categorized as a late assignment.*
5. **Online Test Recordings:** All quizzes and exams must have an accompanying recording video that shows **both** the screen and a webcam recording of yourself simultaneously on the same video. Failure to provide a test recording and/or incorrect recording formats like not including a webcam recording will result in a 0 for that test.
6. **Final Exam Score:** You must receive a 70% or higher on the final exam in order to pass the entire course. If you receive less than 70% on the final exam, your course grade will

default to your final exam grade. (example: if you have a C grade but scored a 55% on the final, your final grade will drop to an F by default)

7. **Starting Quizzes and Exams** – Do **not** start a quiz or exam until you are ready to take it. If you open a test unintentionally, you are required to take that test at that moment or accept a zero. You are responsible for paying attention to your own actions when navigating the site.

Assessment, Tasks, and Grading

WORKSHEET: 30 points – There is one worksheet that must be submitted by the due date. This worksheet can be answered using the McCurnin’s textbook (page scans available via Lamaku.) You may either submit this in person when you have lab or scan the pages and submit online.

QUIZZES: 50 points – Quizzes are held online via Lamaku’s Quizzes tab and can be taken at any time before the due date. Quizzes can only be taken once so do not start the quiz until you are ready. **All quizzes must have an accompanying recording link to verify academic honesty. Submitted quizzes with no link will not be eligible for points.**

EXAM REVIEWS: 40 points – Students are expected to complete reviews prior to each exam. Each student will write **20** questions with the correct answers from the chapters for the upcoming exam and post it to Lamaku and the designated Google Drive folder. No late submissions will be accepted.

EXAMS: 150 points – There are two exams worth 50 and 100 points. The final exam is cumulative. **Receiving a score lower than 70% on the final exam will result in a failing grade for the entire course.**

Academic Integrity

Work submitted by a student must be the student’s own work. The work of others should be explicitly marked, such as through the use of quotes or summarizing with reference to the original author.

In this class, students who commit academic dishonesty, cheating, or plagiarism will have the following consequence(s):

- Students will receive a failing grade for plagiarized assignments.
- All cases of academic dishonesty are referred to the Vice Chancellor for Student Affairs.
- Please note that all suspected actions will be immediately investigated for legitimacy. This may mean receiving a zero on suspected assignments, discussion with the program director and academic affairs, and scrutinization of assignment content until all parties are proven uninvolved.

Refer to Vet Tech Student Handbook for all policies regarding academic dishonesty. Actions that are involved within this policy include but are not limited to:

- Use of notes or similar items during online assessments.
- Sharing answers on assignments that are not considered group assignments.
- Informing classmates of quiz and exam content.
- Using AI as the source of assignment completion.
- Viewing other classmates' papers or talking during quizzes and exams.
- Using any form of unapproved notes during a quiz or exam (paper notes, phone, smartwatch, laptop, etc.)

AI Policy

AI is considered a newer tool that can effectively assist with studying and research. AI may also be used to supplement any projects in this course as a means to edit documents for grammar and semantics. However, **you must be transparent on your productive usage of AI** by indicating how it was used and where (e.g. used to edit for grammar, used to reorganize document sections, used for research purposes, etc.) Using AI to write your case study will be considered plagiarism and may lead to dismissal from the program.
